Organisational Structure of the LOTOS Group

As at December 31st 2008 and as at December 31st 2007, Grupa LOTOS S.A.'s direct share in the total vote at the General Shareholders Meetings of its subsidiary undertakings equalled Grupa LOTOS S.A.'s share in the share capital of these undertakings.¹

Grupa LOTOS S.A. has no branches (plants) within the meaning of the Polish Accountancy Act.

1.2. CONSOLIDATED UNDERTAKINGS OF THE LOTOS GROUP

PARENT UNDERTAKING

Grupa LOTOS S.A. was established by virtue of the Notarial Deed dated September 18th 1991. On April 10th 2002, the Company was entered into the National Court Register maintained by the District Court of Gdańsk, XII Commercial Division of the National Court Register (currently the District Court for Gdańsk-Północ, VII Commercial Division of the National Court Register), under entry No.

¹ As at December 31st 2008, Grupa LOTOS S.A. held 8.97% of shares in the share capital of Przedsiębiorstwo Przeladunku Paliw Płynnych NAFTOPORT Sp. z o.o.

KRS 0000106150. The Company was assigned the Industry Identification Number (REGON) 190541636.

The Company's registered office is situated at ul. Elbląska 135, 80-718 Gdańsk, Poland.

In 2003, by virtue of its decision of May 28th 2003, the District Court of Gdańsk, XII Commercial Division of the National Court Register, changed the Company's trade name from Rafineria Gdańska Spółka Akcyjna to Grupa LOTOS Spółka Akcyjna.

As per the Company's Articles of Association, the Company's core business comprises manufacture, trading, and provision of services.

THE LOTOS GROUP COMPANIES

LOTOS Paliwa Sp. z o.o.

LOTOS Paliwa Sp. z o.o., spun-off from Grupa LOTOS S.A., was incorporated by virtue of Notarial Deed of January 12th 1996 and entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) on April 9th 2001 under No. KRS 0000006312. The company's registered office is located in Gdańsk. As at December 31st 2008, its share capital amounted to PLN 114,706,000.00 and was divided into 114,706 shares with a par value of PLN 1,000.00 per share. The company is wholly owned by Grupa LOTOS S.A.

The company is the exclusive distributor of fuels and light fuel oil of the Group. The operations of LOTOS Paliwa Sp. z o.o. focus on:

- management and development of the service station network (CODO, DOFO and DODO stations) representing one of the largest service station networks on the Polish market;
- sale of fuels to institutional customers and intermediaries;
- management of the network of self-serve Diesel oil pumps and development of Diesel oil sales through such a network (LOTOS Diesel Service);
- retail sale and wholesale of light fuel oil;
- retail sale of liquid gas.

The sales of Diesel oil and unleaded 95 RON gasoline account for the largest share in the structure of fuel sales. The sales of light fuel oil also have a significant share in total sales of the company. In 2008, the company also started selling the *premium* fuels (*LOTOS Dynamic*) and introduced the *Navigator* loyalty programme. The company provides car maintenance services, as well as advertising and promotion services. Car maintenance services comprise car washing and basic car servicing. The company is gradually increasing the number of stations offering such services. In October 2008, following the completion of the tender procedure announced by the General Directorate for National Roads and Motorways (GDDKiA), the company was granted the right to lease and develop three out of the seven pairs of Motorway Service Areas covered by the tender (with three being the maximum number allowed under the Terms of Reference) – two service areas along the A2 Motorway and four service areas along the A4 Motorway. The sale of fuels at those service areas is expected to start in the first half of 2010.

LOTOS Gaz S.A.

LOTOS Gaz S.A. joined the LOTOS Group on June 17th 2003 as a result of the acquisition by Grupa LOTOS S.A. of a 75% stake in PETRIM S.A. Upon the acquisition of the shares, the company's name was changed to LOTOS Mazowsze S.A. PETRIM S.A. was incorporated by virtue of the Notarial Deed of December 27th 2000. The company was entered in the National Court Register maintained by the District Court for the Capital City of Warsaw, XIV Commercial Division of the National Court Register, on December 14th 2001, under No. KRS 0000069388. In June 2004, the acquisition of 75% of shares in LOTOS Mazowsze S.A. was settled. In July 2004, the remaining 25% of shares were acquired. Following the acquisition, LOTOS Mazowsze S.A. became a wholly-owned subsidiary of Grupa LOTOS S.A. On July 5th 2007, the company's name was changed to LOTOS Gaz S.A. As at December 31st 2008, the share capital of LOTOS Gaz S.A. amounted to PLN 3,680,000.00 and was divided into 160,000 Series A Shares with a par value of PLN 23.00 per share. The company's registered office is situated in Mława.

The Company's activities are focused on sales of liquefied gas (LPG and heating gas) and sales of sulphur. As part of its strategy in LPG trade, on July 9th 2007 the company acquired 100% shares in KRAK-GAZ Sp. z o.o. and on August 8th 2007 – the LPG depot in Leszcze (the Pińczów commune).

LOTOS Oil S.A.

The company was established by virtue of the Notarial Deed of July 26th 2002 and was entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) on August 27th 2002, under No. KRS 0000128016. The company's registered office is located in Gdańsk. Its share capital as at December 31st 2008 amounted to PLN 2,000,000.00 and was divided into 200,000 bearer shares (50,000 Series A shares of the first issue and 150,000 Series B shares of the second issue) with a par value of PLN 10.00 per share. Grupa LOTOS S.A. holds 100% of shares in LOTOS Oil S.A.

LOTOS Oil S.A.'s business consists in the production and distribution of lubricants: finished car and industrial oils and lubes, base oils, as well as distribution of car-care products and car chemicals, and sale of plasticizers. The company operates four production centres, located in Gdańsk, Czechowice-Dziedzice and Jasło, and a Distribution Centre in Piotrków Trybunalski.

In 2008, the company continued to consistently strengthen its leading position on the lubricants market. In line with the adopted strategy, the company maintained an over 30% share in the engine oils segment and in the industrial oils segment. In 2008, the company's sales went up by about 7% in terms of volume and by about 12% in terms of value relative to 2007.

LOTOS Asphalt Sp. z o.o.

The company was incorporated by virtue of Notarial Deed of December 30th 2003 and was entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) on April 26th 2004 under

No. KRS 0000204527. The company's registered office is located in Gdańsk. As at December 31st 2008, the company's share capital was PLN 2,000,000.00 and was divided into 4,000 shares with a par value of PLN 500.00 per share. The company is wholly owned by Grupa LOTOS S.A.

The company is Grupa LOTOS S.A.'s sole customer for components for the production of bitumens. LOTOS Asphalt Sp. z o.o. produces and sells road and industrial bitumens, emulsions and special bitumen products; additionally, it also sells heavy fuel oil. LOTOS Asphalt Sp. z o.o. is among leading players on the domestic market of bitumens. In the modified bitumen segment, which accounts for approx. 20% of the company's sales, LOTOS Asphalt Sp. z o.o. remains the unquestionable leader, with the market share exceeding 50%. The company operates three production plants: in Gdańsk, Jasło and Czechowice-Dziedzice. LOTOS Asphalt's bitumens are sold mainly on the domestic market. Export sales are made to Scandinavia, the Baltic states, CEE countries, as well as Austria, Germany and Russia.

In 2008, at its Jasło Division, the company continued the implementation of the investment project consisting in the construction and start-up of a waterproofing materials (tarpaper) production plant. Production at the plant is expected to start in mid-2009.

LOTOS Parafiny Sp. z o.o.

The company was established on the basis of Parafiny Rafineria Jasło Sp. z o.o., through consolidation of the paraffin-related operations of Parafiny Rafineria Jasło Sp. z o.o., RC Parafiny Sp. z o.o. and Chemipetrol Sp. z o.o. Parafiny Rafineria Jasło Sp. z o.o. was incorporated by virtue of Notarial Deed of December 13th 1999 and was entered in the National Court Register (maintained by the District Court of Rzeszów, XII Commercial Register of the National Court Register) on May 27th 2002 under No. KRS 0000114749. On August 26th 2004, the change in the company's name from Parafiny Rafineria Jasło Sp. z o.o. to LOTOS Parafiny Sp. z o.o. was registered. The company's registered office is situated in Jasło. As at December 31st 2008, the share capital of LOTOS Parafiny Sp. z o.o. amounted to PLN 19,783,000.00 and was divided into 19,783 shares with a par value of PLN 1,000.00 per share. Grupa LOTOS S.A. holds 100% of shares in LOTOS Parafiny Sp. z o.o.

The company's operations are based on two production centres located in Jasło and Czechowice-Dziedzice, and are focused on the production of high quality paraffin, a wide range of paraffin mass, wax, ceresine, petroleum jelly and lubes, as well as candles and votive candles.

LOTOS Ekoenergia S.A.

The Company was incorporated by virtue of Notarial Deed of July 17th 2002 and was entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) on August 26th 2002 under No. KRS 0000128043. The registered office of Lotos Ekoenergia S.A. is located in Gdańsk. As at December 31st 2008, the company's share capital amounted to PLN 500,000.00 and was divided into 50,000 Series A shares with a par value of PLN 10.00 per share. LOTOS Ekoenergia S.A. is a wholly-owned subsidiary of Grupa LOTOS S.A.

The company was established in 2002 to execute the 10+ Programme (Comprehensive Technical Upgrade Programme, PKRT). Currently though, the project is being carried out and financed by Grupa LOTOS S.A. As at December 31st 2008, LOTOS Ekoenergia S.A. has not commenced operating activities.

LOTOS Kolej Sp. z o.o.

LOTOS Kolej Sp. z o.o. was incorporated by virtue of the Notarial Deed of January 13th 2000. On October 16th 2002, the company was entered in the National Court Register currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register, under No. KRS 0000135118. The registered office of LOTOS Kolej Sp. z o.o. is located in Gdańsk. As at December 31st 2008, the company's share capital amounted to PLN 2,000,000.00 and was divided into 4,000 shares with a par value of PLN 500.00 per share. The company is wholly owned by Grupa LOTOS S.A.

LOTOS Kolej Sp. z o.o. provides the LOTOS Group with comprehensive railway services. The main activities of the company include:

- provision of comprehensive railway services for Grupa LOTOS S.A. (offtake, supply, freight settlements, representation of Grupa LOTOS S.A.'s interests in relations with PKP (Polish Railways), tank car owners, forwarding companies),
- licensed transport,
- maintenance of infrastructure, rail vehicles and other fixed assets located at railway sidings.

The company holds a licence for transport of goods by railway within the entire territory of Poland. Moreover, LOTOS Kolej Sp. z o.o. operates a rail and road tanker cleaning facility in Jasło, as well as rents tank cars for transporting liquid gases.

LOTOS Serwis Sp. z o.o.

LOTOS Serwis Sp. z o.o. was incorporated by virtue of the Notarial Deed of April 29th 2003. On May 9th 2003, the company was entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) under No. KRS 0000161302. As at December 31st 2008, the company's share capital amounted to PLN 4,000,000.00 and was divided into 8,000 shares with a par value of PLN 500.00 per share. The company is wholly-owned by Grupa LOTOS S.A. LOTOS Serwis Sp. z o.o.'s registered office is situated in Gdańsk.

The activities of LOTOS Serwis Sp. z o.o. consist in the provision of services related to plant engineering, repairs of machinery and production units mainly for Grupa LOTOS S.A. and other undertakings of the LOTOS Group. The Company has divisions in three towns: Gdańsk, Czechowice-Dziedzice and Jasło.

LOTOS Lab Sp. z o.o.

LOTOS Lab Sp. z o.o. was incorporated by virtue of the Notarial Deed of May 29th 2003 and entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) under No. KRS 0000165598 on June 24th 2003. Its registered office is situated in Gdańsk. As at December 31st 2008, the company's share capital amounted to PLN 1,000,000.00 and was divided into 2,000 shares with a par value of PLN 500.00 per share. The company is wholly-owned by Grupa LOTOS S.A.

LOTOS Lab Sp. z o.o. performs laboratory testing in its three laboratories situated in Gdańsk, Jasło and Czechowice-Dziedzice. It provides analytical services related to crude oil, crude oil products, water, sewage, and certain chemicals, and performs measurements and prepares documentation relating to working conditions.

LOTOS Straż Sp. z o.o.

The company was established by virtue of the Notarial Deed of February 4th 2004 and was entered in the National Court Register currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register, under No. KRS 0000196158, on February 20th 2004. As at December 31st 2008, its share capital amounted to PLN 3,900,000.00 and was divided into 7,800 shares with a par value of PLN 500.00 per share. Grupa LOTOS S.A. holds 100% of shares in LOTOS Straż Sp. z o.o.

LOTOS Straż Sp. z o.o. provides fire protection services, including operational and rescue actions, prevention, issuing opinions concerning documentation, granting permits, as well as training services. LOTOS Straż Sp. z o.o. is obliged to provide services related to fire protection for Grupa LOTOS S.A. It may also provide services for other entities, however, only within the area of the Gdańsk refinery. This limitation arises from the need to maintain a permanent and highly reliable fire security at the Gdańsk refinery.

LOTOS Ochrona Sp. z o.o.

The company Służba Ochrony Rafinerii Gdańskiej Sp. z o.o. was established by virtue of the Notarial Deed of June 19th 1998. On January 15th 2002, the company was entered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) under No. KRS 0000068276. Since December 19th 2003, the company has been operating under the name of LOTOS Ochrona Sp. z o.o. As at December 31st 2008, the share capital of LOTOS Ochrona Sp. z o.o. amounted to PLN 302,500.00 and was divided into 605 shares with a par value of PLN 500.00 per share. The company is wholly-owned by Grupa LOTOS S.A.

The activities of LOTOS Ochrona Sp. z o.o. consist in personal and property protection. The company provides services for the LOTOS Group member companies, Petrobaltic S.A. and other entities

performing work on the premises of the Gdańsk refinery. The objective behind limiting the company's scope of operations was to help maintain a constant high level of security at protected premises.

LOTOS Park Technologiczny Sp. z o.o.

The company was established by virtue of Notarial Deed of December 13th 2004. On January 6th 2005, it was entered in the National Court Register maintained by the District Court of Kraków-Śródmieście, XII Commercial Division of the National Court Register, under No. KRS 0000225650. As at December 31st 2008, the share capital of LOTOS Park Technologiczny Sp. z o.o. amounted to PLN 17,307,000.00 and was divided into 34,614 shares with a par value of PLN 500.00 per share. Grupa LOTOS S.A. directly held 27.45% of the company's share capital.

Since the end of December 2007, the company has been involved in the process of winding up its business and participation in further restructuring of the Group's Southern Refineries (Jasło and Czechowice-Dziedzice).

LOTOS Tank Sp. z o.o.

The company was established by virtue of Notarial Deed of April 20th 1999. On April 4th 2002, it was entered in the National Court Register currently maintained by the District Court of Rzeszów, XII Commercial Division of the National Court Register, under No. KRS 0000104463. The company's registered office is located in Jasło. As at December 31st 2008, the share capital of LOTOS Tank Sp. z o.o. amounted to PLN 6,945,000.00 and was divided into 1,000 shares with a par value of PLN 6,945.00 per share. Grupa LOTOS S.A. is the sole shareholder in LOTOS Tank Sp. z o.o.

As part of the LOTOS Group, the company is responsible for the sales of Jet fuel JET-A1 (including development of the sales and meeting sales targets) to end customers, including directly to airport operators.

In 2008, the company was involved in the process of winding up its engine fuels sale business and preparing itself to start a new business. In October 2008, LOTOS Tank Sp. z o.o. concluded an agreement for the purchase of jet fuels with Grupa LOTOS S.A. As part of building its presence in the airport fuel sales segment, the company is implementing an investment project at the Gdańsk-Rębiechowo airport and has started negotiations concerning similar projects with the authorities of the airports in Kraków, Katowice and Warsaw.

UAB LOTOS Baltija

On January 31st 2000, the company was registered under the name of UAB Baltic LOTOS, under No. 110841134, and Grupa LOTOS S.A. acquired 85.03% of the company's share capital. In 2003 the company changed its name from UAB Baltic LOTOS to UAB LOTOS Baltija. Over 2004 and 2005, Grupa LOTOS S.A. acquired the remaining shares in the company, becoming its sole shareholder on November 16th 2005. The company's registered office is located in Vilnius, Lithuania. As at December 31st 2008, the share capital of UAB LOTOS Baltija amounted to LTL 720,200.00 and was divided into 11,080 shares with a par value of LTL 65.00 per share.

The company's business consists in the wholesale and retail sale of lubricating oils in Lithuania, Belarus, and other countries. On April 24th 2008, on the basis of a resolution adopted by the sole shareholder (Grupa LOTOS S.A.), the company's business profile was extended to include exploration and production of hydrocarbons.

KRAK GAZ Sp. z o.o.

The company was established by virtue of Notarial Deed of September 12th 1997. On November 19th 2001, it was entered in the National Court Register currently maintained by the District Court of Kraków-Śródmieście, XII Commercial Division of the National Court Register, under No. KRS 0000057636. The company became a member of the LOTOS Group on July 9th 2007, following purchase of 100% of its shares by LOTOS Gaz S.A. The company's registered office is located in Bochnia. As at December 31st 2008, the share capital of KRAK GAZ Sp. z o.o. amounted to PLN 3,450,000.00 and was divided into 34,500 shares with a par value of PLN 100.00 per share. LOTOS Gaz S.A. is the sole shareholder in KRAK GAZ Sp. z o.o.

In 2008, the company's business activity focused on wholesale and retail sale of liquefied gas (propane-butane) through its network of 44 LPG stations and a reloading terminal in Bochnia.

THE LOTOS CZECHOWICE GROUP

LOTOS Czechowice S.A.

The company was founded through the transformation on January 9th 1996 of the state-owned enterprise operating under the name of Śląskie Zakłady Rafineryjne im. Ludwika Waryńskiego in Czechowice-Dziedzice, into a state-owned stock company Rafineria Czechowice S.A. On March 26th 2002, the Company was entered in the National Court Register maintained by the District Court of Katowice, VIII Commercial Division of the National Court Register, under No. KRS 0000102608. The company was incorporated into the LOTOS Group in February 2005, following the purchase of its shares held by Nafta Polska S.A. (as part of the government strategy for the Polish oil sector). Since December 19th 2005, the Company has been operating under the name of LOTOS Czechowice S.A. Its registered office is located in Czechowice-Dziedzice. As at December 31st 2008, the company's share capital amounted to PLN 75,000,000.00 and was divided into 7,500,000 Series A registered shares with a par value of PLN 10.00 per share. Grupa LOTOS S.A. holds an 80.04% equity interest in the company.

The company's core business consists in provision of services related to trade in (distribution of) oil products, storing of fuels as well as building and maintaining reserves of fuels in accordance with the applicable laws and regulations. LOTOS Czechowice S.A.'s infrastructure, including storage and distribution depot, road tanker terminal along with a fuel and railway loading terminal allows the company to act as the Group's logistics operator complying with current and future strict regulations governing the operation of storage and distribution depots.

RCEkoenergia Sp. z o.o.

RCEkoenergia Sp. z o.o. was founded by virtue of the Notarial Deed of July 11th 2000. The company was entered in the National Court Register maintained by the District Court of Katowice, VIII Commercial Division of the National Court Register, under No. KRS 0000113788. Its registered office is located in Czechowice-Dziedzice. As at December 31st 2008, the share capital of RC Ekoenergia Sp. z o.o. amounted to PLN 20,061,000.00, and was divided into 20,061 shares with a par value of PLN 1,000.00 per share. RC Ekoenergia Sp. z o.o. is wholly-owned by LOTOS Czechowice S.A.

The core business of RC Ekoenergia Sp. z o.o. is the production, transmission, distribution and trade in energy media. In H1 2008, the energy-related components of the FAME auxiliary infrastructure was completed (LOTOS Biopaliwa Sp. z o.o.).

LOTOS Biopaliwa Sp. z o.o.

LOTOS Biopaliwa Sp. z o.o. was established in 2000 under the original name of RC Parafiny Sp. z o.o. On May 10th 2006, the change of the company's name to LOTOS Biopaliwa Sp. z o.o. was registered in the National Court Register. The company is entered in the National Court Register maintained by the District Court of Katowice, VIII Commercial Division of the National Court Register, under No. KRS 0000065231. As at June 31st 2008, the company's share capital amounted to PLN 10,000,000.00 thousand and was divided into 20,000 shares with a par value of PLN 500.00 per share. The company is wholly owned by LOTOS Czechowice S.A.

The company's core business includes production and sale of fatty acid methyl esters (FAME), commonly known as biodiesel. In H1 2008, the company was finalising an investment project consisting in the construction of a FAME installation with the annual throughput capacity of 100 thousand tonnes. The commissioning of the installation was carried out until the end of 2008 (the company commenced production in March 2009). On April 18th 2008, the company and Grupa LOTOS S.A. executed an agreement concerning supplies of FAME to Grupa LOTOS S.A.

THE LOTOS JASŁO GROUP**LOTOS Jasło S.A.**

The company was formed as a result of the transformation on May 17th 1996 of the state-owned enterprise Podkarpackie Zakłady Rafineryjne im. Ignacego Łukasiewicza of Jasło into a state-owned stock company Rafineria Jasło S.A. On November 30th 2001, the company was entered in the National Court Register (maintained by the District Court of Rzeszów, XII Commercial Division of the National Court Register) under No. KRS 0000068125. Since January 2nd 2006, the company's name has been LOTOS Jasło S.A. As at December 31st 2008, the share capital of LOTOS Jasło S.A. amounted to PLN 48,000,000.00 thousand and was divided into 6,000,000 Series A registered shares with a par value of PLN 8.00 per share. Grupa LOTOS S.A. holds 80.01% of shares in LOTOS Jasło S.A.

The company's core business consists in provision of services related to trade in (distribution of) oil products, storing of fuels as well as building and maintaining reserves of fuels. Following its restructuring, the Company discontinued oil processing in October 2008.

PLASTEKOL Organizacja Odzysku S.A.

Pursuant to Art. 5 of the Act on Duties of Entrepreneurs in Respect of Certain Waste Management, Product Charges and Security Deposit Fees, dated May 11th 2001 (Dz.U. No. 63, Item 639), LOTOS Jasło S.A. (previously Rafineria Jasło S.A.) and sixteen other companies set up a common waste recovery organisation operating as a joint-stock company under the name of PLASTEKOL Organizacja Odzysku S.A., registered office in Warsaw. The company was established by virtue of the Notarial Deed of January 8th 2002 and was entered in the National Court Register (currently maintained by the District Court of Rzeszów, XII Commercial Division of the National Court Register) under No. KRS 0000082936 on January 17th 2002. Since August 19th 2004, the company's registered office has been situated in Jasło. As at December 31st 2008, the company's share capital amounted to PLN 1,000,000.00, and was divided into 1,000 Series A registered non-preference shares with a par value of PLN 1,000.00 per share. The company's principal shareholder is LOTOS Jasło S.A., which, as at December 31st 2008 held 83.5% of the total vote at its General Shareholders Meeting.

The business of PLASTEKOL Organizacja Odzysku S.A. consists in wastewater management, waste removal, waste neutralization, sanitary services, and wholesale of waste products and scrap metal.

THE PETROBALTIC GROUP

Przedsiębiorstwo Poszukiwań i Eksploatacji Złóż Ropy i Gazu (P.P.iE.Z.R.iG.) Petrobaltic S.A.

Petrobaltic S.A. commenced its activities as a limited liability company on January 1st 1999, following commercialisation of the state-owned enterprise. In 2003, the company changed its legal form and became a joint-stock company. The company was incorporated into the LOTOS Group in February 2005, following the purchase of its shares held by Nafta Polska S.A. (as part of the government strategy for the Polish oil sector). Petrobaltic S.A. is registered in the National Court Register (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register) under No. KRS 00000171101. Its registered office is situated in Gdańsk. As at December 31st 2008, the company's share capital amounted to PLN 92,400,000.00 thousand and was divided into 9,240,000 shares with a par value of PLN 10.00 per share. Grupa LOTOS S.A. holds 69.00% of the company's share capital.

The core activities of Petrobaltic S.A. consist in the development of oil and gas fields and oil and gas production within the Polish economic zone of the Baltic Sea. In 2008, the company began to expand its production operations to the North Sea, by acquiring shares in LOTOS Exploration and Production Norge AS.

On June 16th 2008, Petrobaltic S.A. received a decision of the Minister of the Environment under which its licence for the exploration for and appraisal of crude oil and natural gas fields in the Wolin area was extended by three years. On October 16th 2008, the company received another decision of the Minister of the Environment, under which its licence for the production of natural gas from the B6 field was extended to cover a period of 26 years as of the licence grant date (i.e. November 7th 2006) and the deadlines for commencing operations under the licences for the B6 and the B4 fields were extended respectively to 96 and 84 months as of the licence grant date (i.e. November 7th 2006 and May 11th 2007, respectively). In June 2008, the Company also obtained corporate approvals to commence the exploration and appraisal work on the B22 and B28 geological structures at the Baltic Sea.

LOTOS Exploration and Production Norge AS

LOTOS Exploration and Production Norge AS was incorporated by Grupa LOTOS S.A. on September 14th 2007. On September 22nd 2007, the company was registered by Norwegian companies registrar Bronnoysundregistrene, under entry number 991735194. In May 2008, newly issued shares in the company were acquired by Petrobaltic S.A., which became the company's second shareholder next to Grupa LOTOS S.A. As at December 31st 2008, the company's share capital amounted to NOK 190,000,000.00 and was divided into 190,000,000 ordinary shares with a par value of NOK 1.00 per share. As at December 31st 2008, Petrobaltic S.A. held 100% of the shares in LOTOS Exploration and Production Norge AS.

The company's business consists in exploration for and production of crude oil at the Norwegian Continental Shelf, as well as provision of related services.

On May 20th 2008, LOTOS Exploration and Production Norge AS signed an agreement with Norwegian company Revus Energy concerning purchase of 10% of interests in the North Sea production licences No. 316, 316B, 316CS and 316DS. Next, on October 22nd 2008, the company signed an agreement with Norwegian company Det Norske Oljeselskap concerning purchase of another 10% of interests in the North Sea production licences No. 316, 316B, 316CS and 316DS. The purchased licences cover the YME field and an additional exploration area. The YME field is located 110 km off the coast, in the southern part of the Norwegian sector of the North Sea. The recoverable crude oil reserves of the YME field, which correspond to the 20% interest held by LOTOS Exploration and Production Norge AS, are estimated by the operator (Talisman) at 13.6 million bbl (about 1,800 thousand tonnes). Production from the field is expected to start in the fourth quarter of 2009. In addition, on August 28th 2008, LOTOS Exploration and Production Norge AS purchased a 20% interest in the PL455 exploration and production licence from Norwegian Energy Company ASA (Noreco). The PL455 licence covers an area of approx. 1,365 square kilometres, located in the southern part of the Norwegian sector of the North Sea, adjacent to the YME field. The interest holders in the licence are Noreco (50%, licence operator), Skeie Energy (30%) and LOTOS Exploration and Production Norge AS (20%). The seismic survey is scheduled for 2008–2009, and in 2010 the licence area will be drilled to confirm its potential. In addition, following the APA round

completed in December 2008, the company obtained the right to interests in another four production licences on the Norwegian Continental Shelf. LOTOS Exploration and Production Norge AS was awarded interests in two licences as the licence operator and in another two licences as a partner. Work on the new licences will start with the acquisition of seismic data and its analysis. If the results of seismic surveys prove positive, the company expects to drill the first wells in 2011.

Miliana Shipping Company Ltd.

Miliana Shipping Company Ltd. was registered in Cyprus on April 22nd 1999. Its registered office is situated in Nicosia, Cyprus. As at December 31st 2008, the company's share capital amounted to CYP 1,000.00 and was divided into 1,000 shares with a par value of CYP 1.00 per share. Petrobaltic S.A. holds 999 shares representing 99.9% of the company's share capital. Through Aphrodite Offshore Services N.V., a subsidiary undertaking which holds 1 share in Miliana Shipping Company Ltd., Petrobaltic S.A. holds 100% of the share capital of Miliana Shipping Company Ltd.

Miliana Shipping Company Ltd. provides services consisting in the storage and transport of crude oil, rescue and spill prevention assistance, as well as geotechnical services. The company was established due to the necessity to legally, financially, and logistically spin off those activities that give rise to risks which may not affect the upstream activities of P.P.iE.Z.R.iG. Petrobaltic S.A.

Aphrodite Offshore Services N.V.

Aphrodite Offshore Services N.V. was included in the Petrobaltic Group on April 7th 1997 following the purchase of 100% of the company shares by Petrobaltic S.A. Aphrodite Offshore Services N.V. was incorporated on May 4th 1990 in the Netherlands Antilles. The company's registered office is located in Curacao, the Netherlands Antilles. As at December 31st 2008, the company's share capital amounted to USD 30,000.00 and was divided into 30,000 shares with a par value of USD 1.00 per share. Aphrodite Offshore Services N.V. is wholly-owned by P.P.iE.Z.R.iG. Petrobaltic S.A.

Aphrodite Offshore Services N.V. is a company involved in sea transport and sea fleet management, whose business includes purchasing, holding and transferring ownership rights, renting, leasing and commissioning the construction of ships, operation of ships, and conclusion of charter agreements. The company is the sole owner of Aphrodite I, a coastal support vessel which was chartered by Miliana Shipping Company Ltd.

Energobaltic Sp. z o.o.

Energobaltic Sp. z o.o. was incorporated on September 10th 1997. On May 11th 2001 the company was entered in the National Register of Entrepreneurs (currently maintained by the District Court for Gdańsk-Północ of Gdańsk, VII Commercial Division of the National Court Register), under No. KRS 0000011924. The company's registered office is situated in Gdańsk. As at December 31st 2008, the share capital of Energobaltic Sp. z o.o. amounted to PLN 14,701,500.00, and was divided into 1,815 shares with a par value of PLN 8,100.00 per share. Petrobaltic S.A. holds 846 shares in

Energobaltic Sp. z o.o., representing 46.61% of its share capital. The company's activities include the production and sale of heat and electricity, natural gas condensate and LPG.

AB Naftos Gavyba

The company was incorporated on July 14th 2000. Its registered office is situated in Gargždai, Lithuania. As at December 31st 2008, the company's share capital amounted to LTL 150,000.00, and was divided into 10,000 shares with a par value of LTL 15.00 per share. Petrobaltic S.A. holds 4,270 shares in AB Naftos Gavyba, representing 42.7% of its share capital.

The company is responsible for equity operations in the oil industry.

1.3 OWNERSHIP CHANGES AT THE LOTOS GROUP IN 2008

Spółka PETROSOFT.pl

On December 27th 2007, LOTOS Jasło S.A. (controlled by Grupa LOTOS S.A. in 80.01%) sold its entire stake in PETROSOFT.pl Technologie Informatyczne Sp. z o.o. to Petrosoft.eu. Sp. z o.o. The shares, whose aggregate par value amounted to PLN 68 thousand, represented 100% of PETROSOFT.pl Technologie Informatyczne Sp. z o.o.'s share capital. The shares, whose value as disclosed in the books of LOTOS Jasło S.A. was PLN 70.4 thousand, were sold for the price of PLN 675 thousand. The shareholders in Petrosoft.eu. Sp. z o.o. are the employees of PETROSOFT.pl Technologie Informatyczne Sp. z o.o. The transaction constituted an element of reorganisation and streamlining of the structure of the LOTOS Group (Current Report No. 2/2008 of January 7th 2008).

Rafineria Nafty Glimar S.A.

On March 19th 2008, the District Court in Nowy Sącz issued a decision to discontinue the bankruptcy proceedings concerning Rafineria Nafty Glimar S.A. (in which Grupa LOTOS S.A. held a 91.54% stake) on the grounds of insufficient financial means available for the official receiver to continue the proceedings. Due to complaints filed against the decision to discontinue the bankruptcy proceedings, the decision became final on July 25th 2008 after the Regional Court in Kraków, XII Commercial Appellate Division, dismissed the complaints.

On December 1st 2008, Grupa LOTOS S.A. concluded an agreement with Podkarpacki Holding Budowy Dróg Drogbud Sp. z o.o. of Strzyżów concerning disposal of its stake, i.e. 9,520,000 shares, in Rafineria Nafty Glimar S.A. with a par value of PLN 10 per share, representing 91.54% of the company's share capital. The value of the transaction was PLN 1m (Current Report No. 61/2008 of December 1st 2008).

Przedsiębiorstwo Poszukiwań i Eksploatacji Złóż Ropy i Gazu Petrobaltic S.A.

On May 19th 2008, Petrobaltic S.A. decided to acquire the new issue shares in LOTOS Exploration and Production Norge AS (previously a wholly-owned subsidiary of Grupa LOTOS S.A.). Following the acquisition of the new issue shares with the value of NOK 32m (i.e. PLN 13,782,400 at the NOK mid-

exchange rate quoted by the National Bank of Poland for May 19th 2008), Petrobaltic S.A. came to hold 80% of the total vote at the General Shareholders Meeting of the company (Current Report No. 22/2008 of May 19th 2008). On June 12th 2008, Grupa LOTOS S.A. concluded an agreement with Petrobaltic S.A. to sell 8 million shares in LOTOS Exploration and Production Norge AS, representing 20% of the company's share capital (Current Report No. 27/2008 of June 12th 2008). Following the above transactions, Petrobaltic S.A., as the ultimate parent undertaking of the LOTOS Group in the exploration and production area, holds 100% of the shares in LOTOS Exploration and Production Norge AS whose core business includes the exploration for and production of crude oil on the Norwegian Continental Shelf.

PLASTEKOL Organizacja Odzysku S.A.

In May 2008, LOTOS Jasło S.A. (controlled by Grupa LOTOS S.A. in 80.01%) proceeded with the buy-out of PLASTEKOL Organizacja Odzysku S.A. shares from minority shareholders. Following the buy-out transactions, the interest of LOTOS Jasło Sp. z o.o. in the share capital of the company increased from 67% to 83.5% by December 31st 2008. As at April 10th 2009, LOTOS Jasło S.A. held a 91% interest in the company's share capital.

Following all the buy-outs of shares from minority shareholders, LOTOS Jasło S.A. acquired in total a 24% stake in the company's share capital, including:

- a 1.5% stake from Mr Dariusz Kiełtyka, conducting business activities under the business name of Firma "AGA", on May 19th 2008,
- a 1.5% stake from Mr Jacek Kiełtyka, conducting business activities under the business name of PPHU BIKOR, on May 19th 2008,
- a 6% stake from Wolar Sp. z o.o. on May 30th 2008,
- a 4.5% stake from PGIEE Ekosystem Sp. z o.o. on June 3rd 2008,
- a 3% stake from AGROB EKO Sp. z o.o. on June 9th 2008,
- a 1.5% stake from Mr Krzysztof Boniecki, conducting business activities under the business name of PW ROBAC, on January 30th 2009,
- a 3% stake from EKO- OPEN sp. z o.o. on February 13th 2009, and
- a 3% stake from Jan B. Tyliś, conducting business activity under the business name of Przedsiębiorstwo Handlowo - Usługowe TYL-OIL, on April 6th 2009.

LOTOS Exploration and Production Norge AS

Following the share capital increase at LOTOS E&P Norge AS from NOK 8m to NOK 40m (registered on May 27th 2008) as a result of which 32m new shares were created, with the total par value of NOK 32m, and the sale by Grupa LOTOS S.A. of shares with a total par value of NOK 8,000 thousand (the equivalent of PLN 3,376 thousand, as translated at the mid-exchange rate quoted by the National Bank of Poland for June 12th 2008) (the agreement of June 12th 2008) Petrobaltic S.A. came to hold 100% of shares in LOTOS E&P Norge AS. On August 26th 2008, the Management Board of Petrobaltic S.A. resolved to commence the procedure for registration of another share capital increase

to be effected in 2008 (see Current Report No. 22/2008 of May 19th 2008 and Current Report No. 47/2008 of June 27th 2008) and of the acquisition of the new shares by Petrobaltic S.A.

The share capital of LOTOS E&P Norge AS was increased from NOK 40m to NOK 190m. The new shares comprising the increased share capital, whose aggregate par value amounts to NOK 150m, are equal and indivisible, represent 78.9% of the E&P Norge AS's increased share capital and are treated by Petrobaltic S.A. as a long-term equity investment.

Petrobaltic S.A. covered the 150 million new shares in LOTOS E&P Norge AS with cash. The purchase price for the shares was equal to their par value, i.e. NOK 150m (the equivalent of PLN 62.8m, translated at the NOK/PLN mid-exchange rate quoted by the National Bank of Poland for August 26th 2008) and was covered with Petrobaltic's internally-generated funds. The purpose of the new share issue was to ensure financing for the further development of the company's business consisting in the exploration and production of crude oil on the Norwegian Continental Shelf.

LOTOS Hydrokompleks Sp. z o.o. w likwidacji

On October 20th 2008, the company was deleted from the National Court Register.

LOTOS Serwis Sp. z o.o.

On September 17th 2008, the District Court for Gdańsk-Północ in Gdańsk, VII Commercial Division of the National Court Register, registered the increase in the share capital of LOTOS Serwis Sp. z o.o. from PLN 2,500 thousand to PLN 4,000 thousand. The share capital increase was effected through the acquisition of new issue shares by Grupa LOTOS S.A., which remained the holder of a 100% stake in LOTOS Serwis Sp. z o.o.

LOTOS Tank Sp. z o.o.

On September 18th 2008, the District Court of Rzeszów, XII Commercial Division of the National Court Register, registered the increase in the share capital of LOTOS Tank Sp. z o.o. from PLN 500 thousand to PLN 6,945 thousand. The share capital increase was effected through the increase of the par value of 1,000 existing shares, from PLN 500.00 per share to PLN 6,945.00 per share. Grupa LOTOS S.A. remained the holder of 100% of the share capital of LOTOS Tank Sp. z o.o. The purpose of the capital increase was to ensure the implementation by the company of the project involving the development of a jet fuel (JET-A1) airport sales segment, including the construction of a fuel terminal at the Gdańsk-Rębiechów airport.

Chemipetrol Sp. z o.o.

On December 30th 2008, LOTOS Jasło S.A. (controlled by Grupa LOTOS S.A. in 80.01%) and Mr. Andrzej Dzięglewicz (President of the Management Board of Chemipetrol Sp. z o.o.) entered into an agreement to sell 100% of the shares in Chemipetrol Sp. z o.o. The value of the transaction, which

involved the sale of 1,100 shares in Chemipetrol Sp. z o.o. with a par value of PLN 50 per share, stood at PLN 266 thousand (Current Report No. 66/2008 of December 30th 2008). The transaction constituted an element of reorganisation and streamlining of the structure of the LOTOS Group.

1.4 CHANGES IN THE ORGANISATION AND MANAGEMENT OF THE LOTOS GROUP

In many areas of its operations the LOTOS Group applies uniform corporate policies. Those requirements are conveyed to Grupa LOTOS S.A.'s subsidiaries by way of directives of the President of the Management Board – Chief Executive Officer of Grupa LOTOS S.A. The fulfilment of and compliance with such requirements is verified during corporate audits.

LOTOS Exploration and Production Norge AS

Petrobaltic S.A. acquired 100% of shares in LOTOS Exploration and Production Norge AS following the increase in the company's share capital (registered on May 27th 2008), from NOK 8m to NOK 40m, resulting in the creation of 32,000,000 new shares with an aggregate par value of NOK 32m, and a transaction involving the sale of shares with an aggregate par value of NOK 8,000,000 (the equivalent of PLN 3,376 thousand at the NOK/PLN mid exchange quoted by the National Bank of Poland for June 12th 2008) (the agreement of June 12th 2008). LOTOS Exploration and Production Norge AS was moved from the group of direct subsidiaries of Grupa LOTOS S.A. to the Petrobaltic Group based on a rationale that Petrobaltic S.A. is the LOTOS Group's leading company operating in the area of oil and gas exploration and production.

LOTOS Lab Sp. z o.o., LOTOS Straż Sp. z o.o. and LOTOS Serwis Sp. z o.o.

In H1 2008 changes were introduced at LOTOS Lab Sp. z o.o., LOTOS Straż Sp. z o.o., and LOTOS Serwis Sp. z o.o. as part of the programme aimed at streamlining the ownership supervision at the LOTOS Group. The changes consisted in the abolishment of the companies' Supervisory Boards. The companies' Extraordinary General Shareholders Meetings which amended their Deeds of Association were held in June 2008. The amendments were registered in the National Court Register maintained by the District Court of Gdańsk-Północ in Gdańsk, VII Commercial Division of the National Court Register, in July and August 2008.

LOTOS Gaz S.A.

On June 30th 2008, a final sale agreement was signed under which LOTOS Gaz S.A. sold an organised part of its business comprising the liquid fuels depot in Rypin to Grupa LOTOS S.A. The transaction is a part of the logistics assets streamlining process under way at the LOTOS Group.

LOTOS Serwis Sp. z o.o.

On November 1st 2008, LOTOS Serwis Sp. z o.o. acquired from Petrobaltic S.A. an organised part of business comprising an Overhaul Unit (OIR), for the total price of PLN 1,077,980 (VAT-excl.). The transaction is a part of the process of streamlining the service and support assets, currently under way at the LOTOS Group.

LOTOS Park Technologiczny Sp. z o.o.

Until May 28th 2008, the company was based in Gorlice; on May 28th 2008, the District Court for Kraków-Śródmieście of Kraków, XII Commercial Division of the National Court Register, registered relocation of the company's registered office, which was moved to Jasło. The company's registered office was relocated as part of the process (initiated at the end of December 2007) of winding-up of the company's operations and the company's participation in further restructuring of the Group's Southern Refineries (in Jasło and Czechowice-Dziedzice).

LOTOS Tank Sp. z o.o.

Within the LOTOS Group, LOTOS Tank Sp. z o.o. is the company dedicated to sales of aviation fuel (JET-A1) to end customers (including direct sales to airport operators) as well as sales development. Throughout 2008, the company gradually discontinued activities related to its previous core business consisting in the sale of motor fuels, and prepared for the launch of its new business. In October 2008, LOTOS Tank Sp. z o.o. concluded an agreement for the purchase of aviation fuel from Grupa LOTOS S.A.

LOTOS Jasło S.A.

Until the end of September 2008, LOTOS Jasło S.A.'s core business consisted in the production and processing of refined petroleum products and their retail sale and wholesale. In October 2008, the company discontinued crude oil processing. Since then, its core operating activities have included services related to the trade in (distribution of) crude oil products, storing of fuels as well as building and maintaining fuel reserves.

1.5 EMPLOYMENT STRUCTURE AT THE LOTOS GROUP

As at December 31st 2008, the LOTOS Group employed 4,878 people, of whom 1,246 people were the employees of Grupa LOTOS S.A..

Chart 2 Performance of Grupa LOTOS S.A., PKN Orlen, and MOL shares as well as the WIG 20 index in January 1st 2008–March 25th 2009

-51.1%	PKN
-52.6%	WIG 20
-59.8%	MOL
-68.7%	LOTOS

At the opening of the first trading session in 2008, Grupa LOTOS S.A. shares traded at PLN 44.60, with the WIG20 index having opened at 3,421.25 points. In the first three weeks of January, the Company share price mirrored the performance of the WIG20 index and continued to suffer from a downward trend which started towards the end of the previous year, arriving at a monthly low of PLN 36.70 on January 23rd. The mortgage market crisis in the United States deepened and spilled over to affect financial institutions, which was the reason behind the steep slide in the Company share price (down by 22.6%) and the WIG index performance (down by 13.7%) recorded in January.

In February, up until the publication of the Q4 2007 financial results, the Company stock was trading in a range. After the release of the financial results, which fell short of expectations, on February 28th, the Company stock price entered into a powerful downward trend. On March 10th, the Company stock slipped into a consolidation, reaching PLN 35.00 per share at the end of the first quarter of the year. At the same time the WIG20 index consolidated, with little fluctuation, arriving at 2,981.07 points at the end of the quarter.

Until April 9th the Company share price and the WIG20 index remained in a flat trend, with minor fluctuations only. Later on, however, three brokerage houses cut their recommendation on the Company stock and the WIG20 index experienced losses, which two factors caused the share price to drop down to a monthly low, i.e. PLN 31.38. May was yet another month to witness a sluggish market. During the period, Grupa LOTOS S.A. stock price fell by 1.7% and the WIG20 index dipped by 1.8%. In June, both the Company shares and the entire WIG20 index suffered heavy losses. On June 25th, the Company stock hit a monthly low of PLN 25.00 per share. The grim situation on the Warsaw Stock Exchange followed from major declines on the global capital markets, and in the case of the Company they were further exacerbated by an unfavourable response of investors to the information that the Company's investment plans had been expanded. However, thanks to an effective information campaign and an announcement that the Company succeeded in raising funds for the planned investments, the stock of Grupa LOTOS S.A. rebounded from its monthly low, gaining 6.0% and

reaching PLN 26.50 at the end of the quarter. The WIG20 index closed the quarter at 2,591.09 points, hitting the lowest level since December 2005.

In July 2008, the Company share price experienced increases intertwined with one-off corrections. The release of information on a major progress made with respect to the implementation of the 10+ Programme and on the intensification of work in the oil exploration and production segment triggered a positive investor reaction. Additionally, the stock price benefited from the appreciation of the WIG20 index, observed in late July, which stemmed from an improved sentiment on the global capital markets. From the beginning of the month, Grupa LOTOS S.A.'s share price was regaining ground and climbed by 6.3%, with the WIG20 index having appreciated by 7.6% over the same period. The reported Q2 2008 financial results of the Company proved better than expected, but this was insufficient to shield Grupa LOTOS S.A. stock against losses, and in August 2008 it dropped from PLN 28.39 at the beginning of the month to PLN 27.27 at the end of the month. Uncertainty prevailing on the market, coupled with sluggish investor activity during summer holidays, contributed to a 4.4% slide of the WIG20 index and extremely low trading volumes. Throughout September, the Company stock price traded in a range. At the same time, the WIG20 index fell by 7.7% due to the collapse of Lehman Brothers and financial difficulties of several major financial institutions having come to light. As at the end of the third quarter of 2008, the WIG20 index dropped to 2,384.22 points.

October and November witnessed an inflow of increasingly alarming news from abroad, which resulted in further declines in the WIG20 index. In October, the Company stock price closely followed the movements in the WIG20 index only to fall behind it in November. During the month, the price plunged by record 36.7%, with high trading volumes. At the end of November, the price arrived at PLN 12.35. Oil stocks, apart from being affected by unfavourable developments in the global economy, took a heavy blow due to a wave of major declines in oil prices which commenced in August. On November 20th, the price of Brent oil dropped to USD 47.91 per barrel, which many analysts interpreted as yet another sign of impending recession that was bound to weaken the global oil demand. Furthermore, on November 13th Grupa LOTOS S.A. published its financial results which turned out to be worse than expected, and on November 24th, UniCredit released a report in which it set the value of the Company shares at PLN 0. December ended with the Company share price up by 2.1%. The first half of the month, however, saw a very sharp upturn in the stock price, which was a rebound after a series of declines triggered by UniCredit's valuation in November, and, subsequently, a sharp decrease spurred by low expectations for the Q4 2008 financial results. At the end of the year, the price of Grupa LOTOS S.A. shares was PLN 11.95, with the WIG20 index having arrived at 1,789.73 points. The price of Brent oil slumped to a record low, i.e. USD 38.73 per barrel, in December 2008.

In January 2009, the Grupa LOTOS S.A. stock suffered a severe depreciation. A 37.3% decline reported during the month caused the price to hit an all-time low of PLN 7.25 on February 2nd 2009. The depreciation followed from a considerable weakening of the zloty and from the allegedly large currency risk exposure attributable to foreign-currency loans contracted by the Company. Two additional factors largely affected the Company: Deutsche Bank's cut of the price target to PLN 7.00

and the increasingly severe recession in the global economy, which contributed to a 15.0% drop in the WIG20 index. From February 3rd, the Company stock price entered into a powerful upward rally, with little correlation to the WIG20 index. An optimistic investor attitude towards Grupa LOTOS S.A. shares resulted from a crisis package being revealed by the Company and public announcements which ended the speculation on alleged liquidity problems. During the month, the stock price shot up by 47.7%, to PLN 10.71. February was yet another month of price drops driving down the WIG20 index, caused by increasingly fragile confidence in the CEE region. From the very beginning of 2009, WIG20 displayed a strong correlation with the PLN/EUR exchange rate, which touched a record low of PLN 4.92 for one euro on February 17th. In March, Grupa LOTOS S.A. stock price experienced record-breaking gains.

From March 2nd to March 25th 2009, the share price advanced by 30.8%, to PLN 13.95. The major contributing factors included the appreciation of the zloty and resultant strengthening of the entire WIG index, an announcement made by the State Treasury that the obligation to maintain mandatory fuel stocks would be assumed in the future by a dedicated agency of the State Treasury, and market expectations of a significant increase in oil prices.

Throughout 2008 and at the beginning of 2009, the Company share price showed strong correlation with the WIG20 and WIG-Paliwa (fuel sector index) indices. However, during the period, the Company stock underperformed the indices, which was best seen between the first days of November and the beginning of February, when the stock price nosedived by 72.87% due to a series of events, such as the UniCredit's recommendation or market speculation on lack of liquidity. From the beginning of January 2008 until March 25th 2009, the Company shares lost 68.72% of their value, reaching the price of PLN 13.95 per share. The WIG20 index depreciated by 52.59% during the period, down to 1,622.11 points. Since February 3rd, the Company share price was able to break the long-term downtrend, roaring ahead by 92.4% over 37 days.

1.8 PAYMENT OF DIVIDEND FOR 2007

On June 30th 2008, the Annual General Shareholders Meeting of Grupa LOTOS S.A. adopted a resolution on the distribution of Grupa LOTOS S.A.'s net profit for 2007. Pursuant to the resolution, the net profit of PLN 745,083,686.06 for the year ended December 31st 2007 was allocated to:

- statutory reserve funds – PLN 742,584 thousand,
- special account designated for financing Grupa LOTOS S.A.'s corporate social responsibility (CSR) projects – PLN 2,500 thousand. The General Shareholders Meeting authorises the Management Board of Grupa LOTOS S.A. to apply the funds in the special account referred to in Par. 1.1 a) in accordance with the Rules Governing the Use of the CSR Special Account, adopted by virtue of Supervisory Board's Resolution No. 3 dated February 20th 2008.

1.9 MAJOR RESEARCH AND TECHNICAL DEVELOPMENT ACHIEVEMENTS OF THE LOTOS GROUP

2008 saw the launch of motor fuels with a 5% m/m content of bio-components. Fatty acid methyl esters (FAME) were used as additives in Diesel oils, while bio-ethanol and/or ethyl tert-butyl ether (ETBE) were introduced as additives to gasolines. The sulphur content was reduced in light fuel oil from 0.2% m/m to 0.10% m/m maximum. The processes aimed at certifying reduced-toxicity oil plasticizers at caoutchouc and rubber manufacturers continued.

In May 2008, a unit for transesterification of rapeseed oil fatty acids was launched at LOTOS Biopaliwa in Czechowice-Dziedzice, with the capacity of 100 thousand tonnes of methyl esters (FAME) per year. Methyl esters are currently the key bio-component in diesel production.

In 2008, LOTOS Parafiny initiated the production of two new products:

- Lumina SC – paraffin used for the production of long-lasting cemetery candles
- LTP 60H Hydro-Refined Paraffin with low oil content, used for candle production, which meets the requirements of the European Wax Federation.

The following achievements were made in 2008 in the field of lubricants:

- new formulae were developed for synthetic oil (Transmil Synthetic) used in industrial transmissions; the formulae obtained Flender's approval,
- a new group of motor oils – Lotos Quazar – was introduced and obtained approval from OEMs,
- new formulae were developed for zinc-free hydraulic oils – Hydromil Super L-HV,
- a new oil for vehicle transmissions – Titanis Super GL-5 75W90 – was introduced.

1.10 CORPORATE GOVERNANCE

Grupa LOTOS S.A. observes the corporate governance standards laid down in the document *Best Practices for WSE Listed Companies*, which was adopted by the Supervisory Board of the Warsaw Stock Exchange on July 4th 2007. The full contents of the document are available to the public on the official website of the Warsaw Stock Exchange in the dedicated section at <http://www.corp-gov.gpw.pl/assets/library/polish/dobrepraktyki2007.pdf>

In line with the “comply or explain” rule, in 2008 Grupa LOTOS S.A. released two reports regarding non-compliance with certain standards contained in *Best Practices for WSE Listed Companies*.

In 2008, the LOTOS Group's sales revenue rose by 6.2% year-on year, and reached 7,549 thousand tonnes. Diesel oils recorded the highest volume increase, that is by 18% (sales higher by 468 thousand tonnes), and accounted for 40% of total sales. Strong sales growth was also reported in reformat, which grew by 55% (higher sales volume by 54 thousand tonnes). However, the share of this product in total sales is only 2%. Sales of aviation fuel rose significantly too, that is by 11%, which translated into higher sales volume (by 50 thousand tonnes). On the other hand, the LOTOS Group recorded lower sales of bitumens (59 thousand tonnes less than in 2007), gasolines (38 thousand tonnes less), bunker fuels (34 thousand tonnes less), as well as lubricant and base oils (20 thousand tonnes less). Sales of fuel oils, liquid gases and other refinery products remained fairly unchanged from the 2007 figures.

4. KEY FINANCIAL AND ECONOMIC DATA CONTAINED IN THE ANNUAL CONSOLIDATED FINANCIAL STATEMENTS AND NON-RECURRING FACTORS AND EVENTS WITH A BEARING ON THE LOTOS GROUP'S PERFORMANCE

Income Statement

In 2008, the LOTOS Group's sales revenue amounted to PLN 16,294.7m, which represented a year-on-year increase of 24.1%, attributable to the net average selling price being higher by PLN 313 per tonne and the volume of petroleum products and goods higher by 6.2%, that is by 439 thousand tonnes. The average net selling price of the LOTOS Group in 2008 grew by 16.9% year on year, to PLN 2,159 per tonne. In the period under review, the Group recorded higher sales volumes of diesel oils (up by 468 thousand tonnes), reformaté (up by 53 thousand tonnes), JET A-1 fuel (up by 51 thousand tonnes), heavy fuel oil (up by 27 thousand tonnes) and liquid gases (up by 2 thousand tonnes), while a drop in sales volumes was recorded in the following product groups: bitumens and components for their production (down by 59 thousand tonnes), gasolines (down by 38 thousand tonnes), bunker fuel (down by 34 thousand tonnes), light fuel oil (down by 12 thousand tonnes), base oils (down by 10 thousand tonnes), and lubricant oils (down by 9 thousand tonnes).

The 2008 cost of sales was PLN 15,287.3m, which represented a year-on-year increase of 34.7%. In the same period, the unit cost of sales was PLN 2,025 per tonne, up by 26.9% on the 2007 figure. As cost of sales grew faster than sales revenue, profit on sales generated by the LOTOS Group in 2008 was 43.4% lower year on year (PLN 1,007.5m). The decrease is principally attributable to the significant drop in prices of crude oil and petroleum products over H2 2008 and its effect on the valuation of inventories. Due to the necessity to adjust the value of inventories of raw materials and products held at the end of the year to reflect their real value at current prices, consolidated gross profit on sales posted by the LOTOS Group decreased by PLN 200.7m.

On January 2nd 2008, the quoted price of Brent dtd crude was USD 96.9 per barrel; it continued to grow strongly in H1 2008 to reach its 2008 peak at USD 144.2 per barrel on July 3rd 2008; thereafter, it began to fall sharply, down to USD 36.5 per barrel on December 31st 2008. The falling prices of crude oil and petroleum products in H2 2008 had an adverse impact on the Group's 2008 consolidated performance, while the upward trend in prices had a positive influence on its results in 2007. The impact of inventory valuation (made using the weighted average method) combined with the downtrend in prices resulted in a decline of the 2008 gross profit on sales by PLN 612.1m, while the upward trend prevailing in 2007 expanded the gross profit on sales by PLN 393.3m.

In 2008, the average USD/PLN exchange rate went down by PLN 0.36 per USD 1 (by 13.1%) on the average USD/PLN exchange rate in 2007. The long USD position of the LOTOS Group had a negative bearing on the gross profit on sales generated in 2008. Additionally, the sharp depreciation of the

Polish zloty in H2 2008, from USD 1 : PLN 2.13 on July 1st 2008 to USD 1 : PLN 2.96 on December 31st 2008, resulted in foreign exchange losses which increased the cost of sales by PLN 319.1m.

Selling costs incurred by the Group in 2008 amounted to PLN 737.4m and were up by 5.7% compared with 2007. The increase was driven mainly by the increased sales volume. General and administrative expenses amounted to PLN 344.5m in 2008, up by 2.7% on the 2007 figure.

In 2008 the Group recorded a net loss on other operating activities of -PLN 71.4m (down by PLN 39.6m relative to 2007).

On the back of extremely adverse macroeconomic conditions, related to a significant depreciation for the Polish zloty, decline in prices of crude oil and petroleum products recorded in H2 2008 and a decrease in the Brent/Ural differential from USD 3.23 bbl in 2007 to USD 2.40 bbl in 2008, the Group recorded operating loss of PLN 145.8m.

In 2008, the Group reported a PLN 358.4m loss on financing activities, as compared with a profit of PLN 290.8m in 2007. The high loss in 2008 stems chiefly from foreign exchange losses of PLN 152.0m, which resulted mainly from loan revaluation and from the excess of the negative balance of settlement of derivatives used to hedge market risk, amounting to -PLN 235.0m. Since the revaluation related to long-term loans whose repayment is spread over a long period, the significant increase in the USD exchange rate had no bearing on the liquidity of the LOTOS Group in the short or medium term.

The total excess of the negative balance of settlement of derivatives in 2008 was charged to financial expenses and amounted to -PLN 235.0m, including: settlement of transactions hedging the refining margin (full barrel swaps) of -PLN 173.2m, settlement of forward transactions hedging the foreign exchange risk of -PLN 67.5m, settlement of FRA transactions executed to hedge the interest rate risk, amounting to PLN 3.3m, and settlement of futures contracts executed to hedge the prices of CO₂ emission rights of PLN 2.4m.

In 2008, the effect of the valuation of open forward and futures positions was charged to financial expenses and totalled -PLN 12.2m, including SWAP transactions hedging the interest rates risk of -PLN 152.7m, transactions hedging the refining margin (full barrel swaps) of PLN 98.2m, forward transactions hedging the foreign exchange risk of PLN 46.7m, and other transactions (futures, FRAs and options) of -PLN 4.4m.

Net loss on continued operations for the period January–December 2008 was PLN 389.9m, whereas the loss attributable to equity holders of the Parent amounted to PLN 453.9m.

Balance Sheet

As at December 31st 2008, the Group's balance-sheet total was PLN 12,202.0m, which represents an increase of PLN 2,481.6m in 2008. The growth was primarily caused by an increase in non-current assets connected with the implementation of the 10+ Programme and the purchase of interests in production licences covering the Yme field on the North Sea, including mainly increases in property, plant and equipment (up by PLN 2,061.4m) and prepayments for tangible assets under construction (up by PLN 418.9m).

Over 2008, current assets fell by PLN 108.5m. Inventories decreased by PLN 142.1m, cash and cash equivalents by PLN 212.2m and trade receivables by PLN 188.5m, while, over the same period, current financial assets increased by PLN 209.4m and receivables from the state budget by PLN 219.3m. As at the end of December 2008, current financial assets amounted to PLN 328.8m, including PLN 302.3m relating to the valuation of transactions hedging refining margin and foreign exchange rates.

The share of non-current assets in total assets increased from 46.4% in 2007 to 58.1% in 2008.

As at December 31st 2008, the Group's equity amounted to PLN 5,800.1m, which means a PLN 350.9m decrease during 2008, mainly as a result of lower retained earnings (down by PLN 435.1m).

In 2008, non-current liabilities of the LOTOS Group went up by PLN 2,484.9m, primarily due to an increase in non-current loans and borrowings, mainly related to the implementation of the 10+ Programme and the maintenance of mandatory stocks. As at the end of 2008, non-current liabilities amounted to PLN 3,700.5m, of which PLN 3,412.2m is attributable to interest-bearing loans and borrowings.

As at the end of 2008, current liabilities stood at PLN 2,701.4m and were up by PLN 347.6m (or 14.8%), primarily due to higher liabilities related to the execution of the investment programme at Grupa LOTOS S.A. (up by PLN 241.2m) and a PLN 214.6m increase in the negative valuation of financial instruments. As at the end of 2008, the LOTOS Group's current loans and borrowings amounted to PLN 507.4m, having decreased by PLN 9.8m over the year. As at the end of 2008, other current financial liabilities amounted to PLN 219.1m, with PLN 218.5m of that figure attributable to negative valuation of financial instruments.

As regards changes in equity and liabilities, the share of equity decreased from 63.3% at the end of 2007 to 47.5% in 2008, the share of current liabilities fell from 24.2% to 22.1%, while the share of non-current liabilities increased by 17.8 percentage points.

Cash Flows

As at December 31st 2008, the cash balance recorded by the LOTOS Group was PLN 338.4m, having decreased by PLN 138.8m relative to the end of 2007.

In 2008, net cash provided by operating activities was PLN 311.7m, up by PLN 153.8m year on year. The cash flow from operating activities increased mainly as a result of a negative effect of foreign exchange differences (PLN 366.7m), amortisation (PLN 315.0m), adjustments resulting from settlement of financial instruments (PLN 238.2m), a decrease in receivables (PLN 164.9m) and a decrease in inventories (PLN 141.7m). In 2008, the key factors which eroded operating cash flows included a negative difference of PLN 423.0m between the current corporate income tax and the corporate income tax paid, a net loss of PLN 389.9m, and a PLN 109.2m decrease in liabilities.

In 2008, net cash used in investing activities amounted to -PLN 2,417.1m, which represented a - PLN 1,600.7m change from the balance of -PLN 816.4m recorded in 2007. The negative cash flows in 2008 were mainly related to expenses incurred on the purchase of property, plant and equipment and intangible assets of PLN 1,699.6m and prepayments for tangible assets under construction of PLN 779.0m.

In 2008, the LOTOS Group disclosed high positive cash flows from financing activities of PLN 1,963.1m, which was higher by PLN 1,450.0m relative to 2007. The increase was mainly attributable to cash provided by loans and borrowings contracted in 2008 (PLN 2,352.7m) reduced by PLN 238.2m of adjustments resulting from settlement of financial instruments.

Assessment of Non-Recurring Factors and Events Affecting the Operating Performance

In 2008, there occurred the following non-recurring events which had a bearing on the Group's performance in 2008:

- sudden drop of prices of crude oil and petroleum products on global markets in H2 2008 (on July 3rd 2008, the price of dtd Brent crude reached its 2008 high of USD 144.2 per barrel, which was followed by a sudden decline that brought the price down to USD 36.5 per barrel as at December 31st 2008),
- rapid depreciation of the zloty (from PLN 2.02 : 1 USD as at July 21st 2008 to PLN 2.96 : 1 USD as at December 31st 2008).
- significant capital expenditure related to the implementation of the 10+ Programme,
- discontinuation of oil processing at the Jasło refinery,
- commencement of prospecting activity by LOTOS Norge.

5. EXPLANATION OF DIFFERENCES BETWEEN ACTUAL FINANCIAL PERFORMANCE AND PREVIOUSLY PUBLISHED FORECASTS FOR 2008 FINANCIAL PERFORMANCE

Grupa LOTOS S.A. did not publish any consolidated performance forecasts for 2008

6. ASSESSMENT OF FINANCIAL RESOURCES MANAGEMENT

During 2008, the LOTOS Group was able to meet all of its liabilities towards third parties.

As at December 31st 2008, the balance of working capital loans amounted to PLN 405.0m. For a detailed specification of debt under loans, see Note 30 to the financial statements.

A synthetic assessment of the LOTOS Group's overall economic and financial standing was based on a ratio analysis of profitability, liquidity and debt levels.

Item	2008	2007
Operating profit/loss (PLN '000)	-145,828	713,664
Operating margin (1)	-0.89%	5.44%
Pre-tax profit/loss (PLN '000)	-504,218	1,004,494
Gross sales margin (2)	-3.09%	7.65%

7. KEY DOMESTIC AND FOREIGN INVESTMENTS OF THE PARENT UNDERTAKING AND THE GROUP COMPANIES; ASSESSMENT OF FEASIBILITY OF PLANNED INVESTMENTS

INVESTMENTS IN TANGIBLE AND INTANGIBLE ASSETS

The Group's major investments in tangible and intangible assets made in 2008 (PLN '000)

Tangible assets under construction and acquisition of property, plant and equipment and intangible assets, including:	Capital expenditure in Jan 1–Dec 31 2008
Construction and assembly work	617,030
Procurement from external suppliers – purchases	703,580
Acquisition of intangible assets	12,565
Other capital expenditure	1,085,232
Prepayments for tangible assets under construction	778,953
Settled prepayments	(345,012)
Total	2,852,348

EQUITY INVESTMENTS

Share capital increase at LOTOS Serwis Sp. z o.o.

On September 17th 2008, the District Court for Gdańsk-Północ in Gdańsk, VII Commercial Division of the National Court Register, registered an increase of the share capital of LOTOS Serwis Sp. z o.o. from PLN 2,500 thousand to PLN 4,000 thousand. The share capital increase was effected through the acquisition of the new shares by Grupa LOTOS S.A. Grupa LOTOS S.A. continues to hold 100% of the shares in LOTOS Serwis Sp. z o.o.

Share capital increase at LOTOS Tank Sp. z o.o.

On September 18th 2008, the District Court in Rzeszów, XII Commercial Division of the National Court Register, registered an increase of the share capital of LOTOS Tank Sp. z o.o. from PLN 500 thousand to PLN 6,945 thousand. The share capital increase was effected by raising the par value of the existing 1,000 shares from PLN 500.00 to PLN 6,945.00 per share. Grupa LOTOS S.A. continues to hold 100% of the shares in LOTOS Tank Sp. z o.o. The company's share capital was increased in connection with the project to set up a new segment within the Company which will handle the sales of aviation fuel (JET-A1) directly to airports, including the project to build a fuel depot in Gdańsk-Rębiechów.

ASSESSMENT OF FEASIBILITY OF PLANNED INVESTMENTS, INCLUDING EQUITY INVESTMENTS, IN VIEW OF AVAILABLE FUNDS.

In 2008, the LOTOS Group and its companies financed their investment projects with internally generated funds and with funds raised from external sources.

On December 20th 2007, Grupa LOTOS S.A. and a bank syndicate signed an agreement providing for a four-year revolving loan for a total amount of USD 400,000 thousand (PLN 1,004,600 thousand, translated at the mid exchange rate quoted by the National Bank of Poland for December 19th 2007), for refinancing and financing the inventories of Grupa LOTOS S.A. The agreement was the first element of the financing strategy for the operations of Grupa LOTOS S.A. in the coming years, related to the implementation of the 10+ Programme.

On June 27th 2008, Grupa LOTOS S.A. executed a credit facility agreement to finance the implementation of the 10+ Programme and the working capital of Grupa LOTOS S.A. The agreement concerns a long-term credit facility for the total amount of USD 1,750,000,000 (PLN 3,739,050 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008), comprising a term loan facility of USD 975,000,000 (PLN 2,083,185 thousand translated at the mid-exchange rates quoted by the National Bank of Poland for June 27th 2008), a redrawable working capital loan facility of USD 200,000,000 (PLN 427,320 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008), an investment loan of USD 425,000,000 (PLN 908,055 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008) guaranteed by SACE S.p.A. (Servizi Assicurativi del Commercio Estero) and a contingent term loan facility of USD 150,000,000 (PLN 320,490 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008).

Together with Grupa LOTOS S.A.'s internally generated funds, the contracted external financing covers the Company's financing needs connected with the ongoing investment projects. Given the global economic slowdown and possible resulting difficulties in securing external financing, the investment projects pursued by the LOTOS Group companies in the production segment may be revised due to the need to reschedule the spending of funds on some projects.

8. EXTERNAL AND INTERNAL FACTORS MATERIAL FOR THE DEVELOPMENT OF THE LOTOS GROUP, AS WELL AS KEY RISKS AND THREATS

EXTERNAL AND INTERNAL RISKS MATERIAL FOR THE DEVELOPMENT OF THE LOTOS GROUP

The key external factors material for the development include:

- **Quotation prices of crude oil and petroleum products** – changes of market prices of crude oil and petroleum products have a material impact on the Company's and its Group's financial performance.
- **PLN/USD exchange rate** – the performance of the Company and its Group is also, to a large/considerable extent, affected by foreign exchange rates, particularly the PLN/USD exchange rate, due to the fact that the prices of the raw materials and of some products are quoted in the American dollar.
- **Petroleum products demand and supply levels** – the demand for Diesel oil is expected to rise in the long run, while the demand for engine fuels is expected to stabilise. These trends are reflected in the investment plans for the Company and its Group.

The key internal factors material for the development are as follows:

- **Implementation of the 10+ Programme** – a material factor with a bearing on the development and financial performance of Grupa LOTOS S.A. and the LOTOS Group in the longer run will be the timely implementation of the 10+ Programme. The construction and start-up of the installations provided for in the Programme will allow the Gdańsk refinery to increase its processing capacity (to 10.5 million tonnes *per annum*) and the oil conversion ratio, which will have a positive effect on the product slate.
- **Development of upstream business** – the planned development of the upstream business is expected to strengthen the Group's independence from external sources of raw materials, further improve its financial performance and enhance the Company's value.
- **Further expansion of the fuel retail sales network** – the implementation of the PROSTA programme is the key factor in strengthening the Company's position on the fuel retail market. In particular, restructuring activities aimed at improving the efficiency of service stations will play a crucial role.

RISKS AND THREATS FACED BY THE ISSUER AND THE EXTENT TO WHICH THE ISSUER IS EXPOSED TO SUCH RISKS AND THREATS

Similarly to other oil sector operators, the LOTOS Group is to a significant extent exposed to external risks following from the overall macroeconomic climate in Poland and worldwide. These are chiefly risks related to fluctuations in interest and exchange rates, volatility of commodity prices and refining

margins, the risk related to prices of CO₂ emission allowances, as well as risks related to availability of raw materials and financing sources.

Another risk factor with a substantial bearing on the Company's operations is the regulatory risk, especially the risk of changes in and interpretations of the tax laws, as well as changes in governmental policies and the consequent alteration of strategic goals.

Further risks material in the context of the Company's business are the liquidity risk and credit risk related to financing and commercial transactions.

The Group's operations involve also:

- the environmental risk – risk of insufficient number of CO₂ emission allowances, risk of a serious industrial failure leading to excessive emissions into the air, water and/or soil as well as the risk of failure to meet the requirements of domestic and EU environmental laws,
- process and technology risk – especially hazards related to the processed substances, technological processes applied, apparatus and equipment used, as well as operating conditions related to, e.g., high pressure and temperature parameters,
- health risks, e.g. employee exposure to hazardous and nuisance factors related to their job tasks and proximity of technological processes, potentially leading to accidents at work or occupational diseases.

At the time of global financial turmoil and high volatility of the prices of commodities and petroleum products as well as currency exchange rates, the crucial issues for the Group's development are timely completion of the 10+ Programme, gaining access to own crude oil reserves, strengthening of the market position, and enhancing the sales efficiency.

Below are described key risks in particular business segments.

Risks related to the execution of the 10+ Programme

The execution of the 10+ Programme carries a number of risks typical of large investment projects. Apart from the usual risks related to costs and deadlines as well as to ensuring the appropriate quality and meeting security requirements, 2009 may also bring on other factors as a consequence of the global financial and economic crisis.

Risks related to the upstream business

One of the essential goals of the LOTOS Group is gradual development of oil production. The revised strategy of Grupa LOTOS S.A. for 2008–2012, published on June 16th 2008 in Current Report No. 28/2008, assumes a material increase in capital expenditure on the upstream segment.

The upstream operations are planned to be developed gradually, as the Company acquires further interests (initially minority interests) in exploration and production licences. The goal behind this approach is to gain experience through cooperation with the field operators. Given the global economic slowdown, the production plans may be revised due to the need to reschedule the spending of funds on some production projects.

Risks related to the supply of raw materials

In 2008, the LOTOS Group continued efforts related to the strategy of oil supply diversification, focusing on two key aspects of this strategic goal:

- security of crude oil supplies,
- higher competitiveness.

Marketing risks

Given that the macroeconomic conditions in which the LOTOS Group operates strongly impact its sales, the Group is exposed to the adverse effect of market factors, especially in the context of the current economic downturn. Demand for the products of the LOTOS Group will depend on the extent and duration of the crisis.

Risks related to the financing of operations

In mid 2008, Grupa LOTOS S.A. signed credit facility agreements for the financing of the 10+ Programme. The credit facility is a long-term loan, advanced by more than a dozen high-profile financial institutions.

Potential risks related to financing are as follows:

- risk of limited access to financing for both investment projects and working capital,
- risk related to Grupa LOTOS S.A.'s ability to ensure 40% of the financing for the 10+ Programme from its own funds, generated from operating cash flows, which is one of the conditions for the drawdown of the credit facility for the 10+ Programme,
- risk of higher cost of financing or deterioration of the financing terms.

Risks related to changes in tax laws and to tax law interpretations

The legal environment in which the LOTOS Group operates is characterised by frequent changes in tax legislation. Newly introduced regulations and changes in the manner of applying the existing laws influence the operations of the LOTOS Group and the type of activities it undertakes, and have a bearing on the amount of tax liabilities. In view of the numerous regulatory changes the Company has

implemented internal procedures designed to ensure legal compliance as well as to identify and mitigate tax risk and its effect on the financial statements of the LOTOS Group. Changes in the regulations are monitored on an ongoing basis, thus enabling the Company to appropriately adapt its internal tax accounting systems.

Legal risks of strategic nature

In preparing its strategic analyses the LOTOS Group cooperates with governmental bodies responsible for developing and implementing the government's strategy for the oil sector. Relevant Ministries are kept informed of the progress in implementing the particular objectives of the governmental strategy as well as of the proposed development directions for the Polish oil sector. The Company also monitors the Polish and EU legislation pertaining to the oil sector and obtains opinions on laws to be enacted or already in force, especially with respect to regulations on mandatory stocks of crude oil and fuels as well as bio-components and biofuels.

Risk of stricter quality requirements for oil products

The LOTOS Group keeps close eye on the proposed new standards and regulations relevant for its production and sales. The source of information on future changes in quality requirements is Technical Committee 222 at the Polish Committee for Standardisation, responsible for petroleum products and process liquids. Thanks to its active participation in the work of the subcommittees comprised in Technical Committee 222 Grupa LOTOS S.A. is able to issue opinions on the proposed European standards still at the stage of their development. The Company can also have a say on the level of quality requirements, especially for motor fuels, through participation in the Polish Organisation of Oil Industry and Trade. Participation in the work of the above organisations substantially reduces the risks of delayed compliance with future quality standards for oil products. 2009 is not expected to bring any changes in the standards or laws which would make the existing requirements for petroleum products, especially motor fuels, more stringent.

Environmental risks, process and technology risks, health risks

To reduce the likelihood of adverse events, such as occupational diseases and health hazards related to the job tasks of the LOTOS Group's employees, preventive measures and efforts come into focus. In line with applicable laws and internal regulations, the Company identifies potential workplace hazards and assesses occupational risks related to such factors as noise, vibrations, chemical and biological substances, explosive atmospheres, plant and equipment, and nuisance in workplaces equipped with visual display units.

Risk of insufficient number of CO₂ emission allowances for the existing units and risk of failure to obtain a sufficient number of the allowances for new units or units which have been substantially modified (resulting in higher CO₂ emissions)

On July 1st 2008, the Polish Council of Ministers' Regulation on the National Allocation Plan of Carbon Emission Allowances for 2008–2012, issued under the EU emission trading scheme to existing installations and installations undergoing modification (Dz.U. No. 202, item 1248), was published and the allocation was made. In accordance with the current legislation, allowances for Phase II (the years 2008–2012) were given free of charge to all the installations covered by the emission trading scheme. In line with the allocation and based on: a) formal settlement of the first year of the National Allocation Plan of Carbon Emission Allowances II (2008) and b) emission forecasts until 2012, the Company does not anticipate any shortage of the allowances for the existing units.

The need for additional allowances will arise in the second half of 2009. Grupa LOTOS S.A. is very likely to obtain additional allowances in connection with the execution of the 10+ Programme. However, some uncertainty follows from the absence of set rules for acquiring such allowances.

Grupa LOTOS S.A. manages its key risks, focusing particularly on the financial and market risks.

Financial and market risks are managed by the Financial Risk Management Committee, which is responsible for the supervision and coordination of the financial risk management process at Grupa LOTOS S.A. The efforts in this area are designed to maximise the result on market risk management at the assumed risk level, stabilise the cash flows, ensure short-term financial liquidity, support the activities related to the arrangement of financing for investment activities.

Management of the following risks is particularly important for the operations of Grupa LOTOS S.A.:

- risk related to the prices of raw materials and petroleum products
- risk related to prices of carbon allowances (CO₂)
- currency risk
- interest rate risk
- liquidity risk
- counterparty risk in financial transactions
- counterparty risk in non-financial transactions

For all the above risks Grupa LOTOS S.A. has put in place appropriate management procedures. The factor which determines risk management until 2010 is the liquidity of the LOTOS Group, related especially to the implementation of the 10+ Programme.

In 2008, Grupa LOTOS S.A. started preparations to implement the Integrated Enterprise Risk Management programme.

9. DEVELOPMENT PROSPECTS OF THE LOTOS GROUP TAKING INTO ACCOUNT THE ASSUMED MARKET STRATEGY

The restructuring and investment activities undertaken by the Management Board of Grupa LOTOS S.A. (appointed in 2002), which were crowned with the public offering, floatation of the Company shares on the Warsaw Stock Exchange and obtaining additional funds, constitute a springboard for the LOTOS Group's further development and building shareholder value.

The execution of the investment programmes and plans set forth in the updated strategy for 2006–2012 will enhance the domestic market position of the Company and the LOTOS Group and should consequently improve its financial performance and share price.

The key objective of Grupa LOTOS S.A.'s development policy is to maintain the competitiveness of the Company among oil companies operating in the Baltic Sea basin and the Central and Eastern Europe. Grupa LOTOS S.A. intends to pursue this goal through various operational and market activities.

The operating activities include the implementation of the 10+ Programme. Completion of the Programme will enable the Company to improve the economies of scale in refining volumes and depth of conversion, which in turn should lead to an improvement of the general economic efficiency of oil processing at Grupa LOTOS S.A.'s refinery in Gdańsk.

Another important direction in the development of the Group's operating activities is creation of an upstream segment, which will enable the Group to reduce its exposure to fluctuations in crude oil prices.

As far as marketing activities are concerned, Grupa LOTOS S.A. intends to pursue the goal of maintaining its competitive position in the region by increasing its market shares and then keeping them at a stable level, by expanding its the CODO and DOFO service station network, and by drawing on the competitive edge resulting from the seaside location of the Gdańsk refinery.

The Company's policy also envisages development of the Southern Refineries by their expansion into new areas, i.e. logistics and distribution, biofuel production and plastic recycling.

The Company's policy assumes that expansion in the abovementioned areas will be pursued with due regard to environmental protection and reduction of the company's environmental impact.

Updated Strategy of the LOTOS Group until 2012

On June 16th 2008, the Supervisory Board of Grupa LOTOS S.A. approved the updated *Strategy of the LOTOS Group until 2012*. In line with the updated Strategy, the Group will continue its policy focused on stimulating sustainable development of its core business, with an overriding strategic goal of creating value for shareholders.

The *Strategy of the LOTOS Group until 2012* was updated with respect to key objectives for each of the three main areas of the Company's operations:

- exploration & production segment,
- operating segment,
- marketing segment.

Key Objectives of the Updated Strategy in the Area of Exploration & Production Are to:

- improve security of crude oil supplies processed by the refineries by securing direct access to hydrocarbon reserves,
- achieve stable growth of hydrocarbon production by 2012 through the implementation of programmes aimed at increasing production rates from the Baltic Sea deposits, which are covered by licences held by Petrobaltic S.A., as well as through the execution of new projects outside of Poland,
- increase the share capital of Grupa LOTOS S.A. by way of a contribution in-kind of shares in Petrobaltic S.A. held by the State Treasury.

According to the updated Strategy, the total output of the exploration & production segment will reach at least 10% of the LOTOS Group's crude throughput volume in 2012 and will rise above 20% by 2015. The average ROACE (return on average capital employed) for the whole segment will be over 15%. The related investment expenditure in 2006–2012 is estimated at PLN 5.1bn.

Key Objectives of the Updated Strategy in the Operating Area

In the operating area, the key objective is to improve the economic effectiveness of crude oil processing, through increasing throughput volumes, with a concomitant increase in the conversion ratio and reduction in sulphur content. To this end, we are implementing the two-stage 10+ Programme. Additionally, the Group will build the necessary facilities which are not covered by the scope of the 10+ Programme, while upgrading some of the existing units.

These projects will yield the following outcomes:

- the annual crude processing capacity will have risen to 10.5 million tonnes, with a concomitant increase of the conversion ratio,
- universal configuration of the facilities will allow the Company to produce various types of fuels in response to market demand,
- the production of heavy fuel and bunker oil with high sulphur content will be minimised to comply with new environmental regulations which are being implemented,
- the Company will have gained more flexibility with respect to its overhaul policy, and thus the operational availability of its production units will increase,
- the existing fuel storage depots will be expanded and new logistics infrastructure will be created for shipment of large consignments by sea,
- it will become possible to simultaneously process various types of crude oil,
- the LOTOS Group's competitive position in relation to other European refineries will improve.

The expenditure on the implementation of the strategic objectives in the operating area in 2006–2012 is estimated at approx. PLN 6.7bn, including approx. PLN 5.2bn for the implementation of Stage I (scheduled for 2006–2010) of the 10+ Programme.

Key Objectives of the Updated Strategy in the Marketing Segment Are to:

- secure a 30% share in the Polish market of fuels by 2012,
- secure a 40% share in the Polish market of aviation fuels by 2012,
- enhance LPG sales efficiency,
- secure a 10% share in the retail market of fuels by 2012,
- enter the self-service filling stations segment,
- secure a 20% share of sales of fuels on motorways, once the main stage of the motorway construction programme is completed,
- expand the Group's network of filling stations by flexibly taking advantage of market opportunities, including opportunities for organic and non-organic growth.

The estimated expenditure on the strategic objectives in the marketing area in 2006–2012 may reach PLN 1.1bn.

Key Objectives of the Updated Strategy in the Area of Financial Activities

It is assumed that the Company will use external financing to fund the implementation of its strategy, however, the debt to equity ratio should not at any time be higher than 0.8.

The assessment of effectiveness of the LOTOS Group's operations will be based on an analysis of the EBITDA margin (excl. excise duty) and return on capital employed, whose value until 2012 should not be lower than 9% and 12%, respectively. According to the LOTOS Group's strategy, the aggregate capital expenditure in 2006–2012 will total approx. PLN 12.9bn.

The payment of dividend will be subordinated to the optimisation of the financing structure of the LOTOS Group. During the implementation of the key strategic programmes, the dividend will not exceed 10% of net profit. Following the implementation of the programmes, the dividend is intended to grow up to 30% of net profit. The dividend policy for subsidiary undertakings is determined by the Management Board of Grupa LOTOS S.A., upon taking into consideration their financial standing and development programmes.

Development Directions for 2013–2020

The most important step aiming at increasing the Company's value – following the implementation of the strategic objectives until 2012 – is the development of the exploration and production segment, and the strengthening of the market position. The contemplated projects include:

- continuation of efforts aiming at increasing crude oil production, to exceed 20% of the processing capacities by 2015, with an upward trend in the subsequent years,
- construction of a heavy residue gasification unit, focused on hydrogen and energy carrier generation – Stage 2 of the 10+ Programme,
- launch of new-generation biofuel production,
- CO₂ sequestration – depositing CO₂ in geological structures,
- continuation of activities supporting construction of underground storage facilities for oil and petroleum products (caverns),
- development of technologies contributing to margin growth.

Decisions related to the development activities will be based on feasibility studies, and will be implemented in line the LOTOS Group's financing capabilities. The Group does not exclude the possibility of entering into financing/equity arrangements or establishing a joint venture with a strategic partner.

Key macroeconomic and price-related assumptions adopted by Grupa LOTOS S.A. for the purpose of formulating the key assumptions of its financial policy until 2012:

	2009	2012
Oil price (2008 fixed prices):		
- dtd Brent (USD/bbl)	112.52	128.02
- Ural CIF Rotterdam (USD/bbl)	108.8	124.52
Crack spreads for products (2008 fixed prices):		
- Premium gasoline 10 ppm – Cargoes CIF NEW (USD/t)	145	145
- Diesel 10 ppm – Cargoes CIF NWE (USD/t)	178	178
- Gasoil 0.1% – Cargoes CIF NWE (USD/t)	140	140
- Fuel Oil 3.5% – Barges FOB Rotterdam (USD/t)	-271	-271
EUR/PLN	3.50	3.20
USD/PLN	2.56	2.48

10. AGREEMENTS CONCERNING LOANS AND BORROWINGS CONTRACTED AND TERMINATED DURING THE FINANCIAL YEAR, AS WELL AS INFORMATION ON MATURITY DATES AND SURETIES AND GUARANTEES ISSUED AND RECEIVED

SURETIES AND GUARANTEES

Grupa LOTOS S.A.

- On April 27th 2007, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a bank guarantee for the benefit of the Customs Chamber to secure liabilities under customs-duty debts, taxes and other customs-related charges for the amount of PLN 160,000 thousand. On May 5th 2008, the value of the guarantee increased to PLN 200,000 thousand. The guarantee expires on May 4th 2009, while the guarantor's liability continues until July 3rd 2009. On December 17th 2008, the value of the guarantee decreased to PLN 125,000 thousand.
- On August 10th 2007, at the request of Grupa LOTOS S.A. Deutsche Bank PBC S.A. issued a bank guarantee for the benefit of the Customs Chamber to secure liabilities under customs duty, taxes and other customs charges for the amount of PLN 7,000 thousand. The contingent liability expired on January 31st 2008.
- On June 27th 2008, at the request of Grupa LOTOS S.A., Bank Millennium S.A. issued a guarantee for PLN 14,500 thousand for the benefit of the Customs Office of Pruszków as excise security. The guarantee expired on August 10th 2008.
- On January 3rd 2007, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a bank guarantee for the benefit of CB&I LUMMUS GmbH in the form of a documentary letter of credit for the amount of EUR 19,034 thousand (the equivalent of PLN 72,843 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for January 3rd 2007). The original validity term of the guarantee expired on June 30th 2008. The validity term of the letter of credit was extended a few times, recently until March 31st 2009. As a result of successive draws under the letter of credit, as at December 31st 2008, its value was EUR 346 thousand (the equivalent of PLN 1,444 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for December 31st 2008).
- On July 10th 2007, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a bank guarantee in the form of a stand-by letter of credit for EUR 45,000 thousand (the equivalent of PLN 169,448 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for July 10th 2007) for the benefit of Technip Italy S.p.A. The letter of credit was issued to secure the provision of services connected with the construction of an MHC unit and an amine complex. The original validity term of the guarantee expired on December 31st 2007. On October 19th 2007, the validity term of the letter of credit was extended until June 30th 2008 and the total amount of the letter of credit was raised to EUR 52,313 thousand in the period January 1st – March 31st 2008, and subsequently up to EUR 53,462 thousand in

the period April 1st – June 30th 2008. The amount of the stand-by letter of credit in the period July 1st – September 30th 2008 was EUR 47,355 thousand, and in the period October 1st – November 14th 2008 – EUR 45,515 thousand. On November 14th 2008, the letter of credit was cancelled by mutual agreement between the parties.

- On January 16th 2008, at the request of Grupa LOTOS S.A., Deutsche Bank Polska S.A. issued a payment guarantee of USD 10,800 thousand (PLN 26,214 thousand, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for January 16th 2008) for the benefit of TOTAL DEUTSCHLAND GmbH in connection with the supply of gasoline. The guarantee expired on May 31st 2008.
- On May 2nd 2008, at the request of Grupa LOTOS S.A., Bank Millenium S.A. issued a guarantee for PLN 13,200 thousand for the benefit of the Customs Office of Bielsko-Biała as excise security. The guarantee expired on June 30th 2008.
- On June 26th 2008, at the request of Grupa LOTOS S.A., Deutsche Bank Polska S.A. issued a payment guarantee for USD 12,000 thousand (the equivalent of PLN 25,704 thousand, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for June 26th 2008) for the benefit of TOTAL DEUTSCHLAND GmbH in connection with the supply of gasoline. The original validity term of the guarantee expired on December 31st 2008. On December 12th 2008, the validity term of the guarantee was extended until January 31st 2009. The guarantee expired with the end of its validity period.

Petrobaltic S.A.

- On June 17th 2008, Petrobaltic S.A. issued an unconditional and irrevocable guarantee, payable on first demand, for the benefit of REVUS Energy ASA, securing the performance by LOTOS Exploration and Production Norge AS of its obligations under the agreement concluded with REVUS Energy ASA concerning transfer of interests in PL 316, PL 316B, PL 316CS and PL 316DS licenses on the Norwegian Continental Shelf. Petrobaltic S.A. undertook to pay any amounts which may become due to REVUS Energy ASA as if they were owed by Petrobaltic S.A.

As a result of the settlement made with respect to the agreement between LOTOS Exploration and Production Norge AS and REVUS Energy ASA concerning transfer of interests in PL 316, PL 316B, PL 316CS and PL 316DS licences on the Norwegian Continental Shelf, the unconditional and irrevocable guarantee issued by Petrobaltic S.A. for the benefit of REVUS Energy ASA expired and the guarantee document was returned by REVUS Energy ASA to Petrobaltic S.A.

- On June 17th 2008, Petrobaltic S.A. issued an unconditional and irrevocable guarantee for the benefit of the government of Norway covering all the activities undertaken by LOTOS Exploration and Production Norge AS as part of its exploration and production operations on the Norwegian Continental Shelf. In the guarantee, Petrobaltic S.A. confirmed that it undertakes to assume full financial liability which may arise in connection with LOTOS Exploration and Production Norge AS' activities consisting in exploration for and extraction of the natural resources from the sea bottom, including storage and transport on the Norwegian Continental Shelf using means of transport other than ships.

LOTOS Gaz S.A.

- On June 30th 2008, LOTOS Gaz S.A. and ING Bank Śląski concluded a surety agreement whereby LOTOS Gaz S.A. issued a surety for the repayment of a PLN 10,000 thousand loan contracted by KRAK-GAZ Sp. z o.o. (under a loan agreement dated June 24th 2004). On December 16th 2008, the loan contracted by KRAK-GAZ Sp. z o.o. was repaid and the surety granted by LOTOS Gaz S.A. expired.

SURETIES AND GUARANTEES ISSUED AFTER THE BALANCE-SHEET DATE

Grupa LOTOS S.A.

- On January 2nd 2009, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a guarantee for PLN 1,500 thousand for the benefit of the Customs Office of Pruszków as excise security. The guarantee expires on June 30th 2009.
- On February 2nd 2009, at the request of Grupa LOTOS S.A., Deutsche Bank Polska S.A. issued a guarantee for USD 18,000 thousand (the equivalent of PLN 62,690 thousand, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for February 2nd 2009) for the benefit of TOTAL DEUTSCHLAND GmbH. The guarantee was issued to secure the payment of amounts due for the delivery of diesel oil and gasoline, and remains valid through July 31st 2009.

OTHER MATERIAL CONTINGENT AND OFF-BALANCE-SHEET LIABILITIES

Grupa LOTOS S.A.

- The validity of the blank promissory note of March 16th 2006 for PLN 200,000 thousand, issued to secure Grupa LOTOS S.A.'s tax liability connected with the suspended excise tax

collection procedure, was extended until June 16th 2009. The original validity term of the blank promissory note expired on March 16th 2007, and was subsequently extended until June 16th 2008.

- The validity of the blank promissory note of July 5th 2005 for PLN 200,000 thousand, issued to secure the Grupa LOTOS S.A.'s tax liability connected with the suspended excise tax collection procedure, was extended until July 7th 2009. The original validity term of the blank promissory note, which expired on July 7th 2006, was extended until July 5th 2007 and then until July 7th 2008.

- On January 2nd 2008, at the request of Grupa LOTOS S.A., Bank Pekao S.A. issued a stand-by letter of credit for EUR 39,085 thousand (the equivalent of PLN 140,608 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for January 2nd 2008) for the benefit of Technip KTI S.p.A, valid through March 31st 2008. The letter of credit was issued to secure the performance of a construction contract related to the amine complex. On April 1st 2008, the validity period of the letter of credit was extended until June 30th 2008 and its amount decreased to EUR 37,634 thousand. The amount of the stand-by letter of credit in the period July 1st–September 30th 2008 was EUR 38,668 thousand, and in the period October 1st–November 4th 2008 – EUR 38,595 thousand. On November 4th 2008, the letter of credit was cancelled by mutual agreement between the parties.

- On April 1st 2008, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a stand-by letter of credit for EUR 5,195 thousand (the equivalent of PLN 18,240 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for April 1st 2008) for the benefit of LURGI S.A., valid through June 30th 2008. On July 1st 2008, the amount of the letter of credit was raised to EUR 10,979 thousand and its validity term was extended until September 30th 2008. The letter of credit was issued to secure the performance of a contract related to the construction of a hydrogen generation unit (HGU).
On October 1st 2008, the validity term of the letter of credit was extended until December 31st 2008 and its value was again increased – to EUR 14,923 thousand. Then, on January 1st 2009, the validity term of the letter of credit was extended until March 31st 2009, and its amount decreased to EUR 14,234 thousand. Since December 17th 2008, the letter of credit has been financed under the term loan facility granted by the group of financial institutions (see Note 30 to the Consolidated Financial Statements). The letter of credit expired on March 31st 2009.

- On April 30th 2008, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a stand-by letter of credit for EUR 7,230 thousand (the equivalent of PLN 25,019 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for April 30th

2008) for the benefit of LURGI S.A., valid through July 31st 2008. The letter of credit was issued to secure the performance of the EPC contract for the crude and vacuum distillation units (CDU/VDU). On July 31st 2008, the validity period of the letter of credit was extended until October 31st 2008. The value of the stand-by letter of credit was increased to EUR 15,356 thousand. On November 1st 2008, the validity term of the letter of credit was extended until January 31st 2009. The value of the stand-by letter of credit was raised to EUR 20,175 thousand (the equivalent of PLN 71,752 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for November 3rd 2008). On February 1st 2009, the validity term of the letter of credit was extended until April 30th 2009 and its value decreased to EUR 15,647 thousand. Since December 17th 2008, the letter of credit has been financed under the term loan facility granted by the group of financial institutions.

- On June 2nd 2008, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a documentary letter of credit for EUR 19,034 thousand (the equivalent of PLN 64,403 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for June 2nd 2008) for the benefit of CB&I LUMMUS GmbH. The original validity term of the letter of credit expired on December 31st 2008. The letter of credit was issued to secure the performance of a contract related to a diesel hydrodesulphurisation unit (HDS). On January 1st 2009, the validity term of the letter of credit was extended, first until January 31st 2009, and then until March 31st 2009. As a result of successive draws under the letter of credit, its value as at December 31st 2008 was EUR 2,913 thousand (the equivalent of PLN 12,154 thousand, translated using the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for December 31st 2008).

- On September 18th 2008, at the request of Grupa LOTOS S.A., Deutsche Bank Polska S.A. issued a stand-by letter of credit for USD 10,000 thousand (the equivalent of PLN 23,428 thousand, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for September 18th 2008) for the benefit of PETROPLUS MARKETING AG. The validity period of the letter of credit expired on October 31st 2008. The letter of credit was issued to secure the payment for diesel oil supplies. The guarantee expired with the end of its validity period.

- On October 22nd 2008, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. opened a documentary letter of credit for EUR 19,034 thousand (the equivalent of PLN 70,690 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for October 22nd 2008) under the term loan facility granted by the group of financial institutions. The letter of credit, issued for the benefit of CB&I LUMMUS GmbH, is valid through June 30th 2009. It was issued to secure the performance of a contract related to

a diesel hydrodesulphurisation unit (HDS). As a result of successive draws under the letter of credit, its value as at December 31st 2008 was EUR 11,830 thousand (the equivalent of PLN 49,359 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for December 31st 2008).

- On December 19th 2008, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. opened a stand-by letter of credit for EUR 500 thousand (the equivalent of PLN 2,057 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for December 19th 2008) under the term loan facility granted by the group of financial institutions. The letter of credit, issued for the benefit of LURGI S.A., is valid through May 31st 2009. The letter of credit was issued to secure the performance of a contract related to modernisation of a condensate station and construction of a fuel gas terminal.

LOTOS Asphalt Sp. z o.o.

- On April 30th 2008, LOTOS Asphalt Sp. z o.o issued a blank promissory note for the benefit of BRE Bank S.A., valid through the date of repayment of debt and/or termination or expiry of the overdraft facility agreement. The promissory note was issued as security for repayment of the PLN 80,000 overdraft facility. The original validity term of the overdraft facility agreement expired on November 27th 2008.

On November 28th 2008, the term of the overdraft facility agreement was extended until November 27th 2009, and the amount of the overdraft facility was reduced to PLN 30,000 thousand. The facility is secured with the blank promissory note, valid through the date of repayment of debt and/or termination or expiry of the overdraft facility agreement.

LOTOS Oil S.A.

- The validity of a blank promissory note with a promissory note declaration, for the amount of PLN 10,000 thousand, issued by LOTOS Oil S.A. on March 18th 2007, which was submitted to the Customs Office to secure an excise tax liability, was extended until April 30th 2010. The original validity term of the promissory note expired on October 31st 2008.

LOTOS Biopaliwa Sp. z o.o.

- On April 17th 2008, LOTOS Biopaliwa Sp. z o.o. issued and submitted to the Customs Office of Bielsko-Biała two blank promissory notes with promissory note declarations, guaranteed by LOTOS Czechowice S.A., one for the amount of up to PLN 5,921 thousand and the other for the amount of up to PLN 4,263 thousand, as security for its excise tax liabilities. The promissory notes were valid until April 16th 2009.

- On December 30th 2008, LOTOS Biopaliwa Sp. z o.o. issued and submitted to the Customs Office of Bielsko-Biala a blank promissory note with a promissory note declaration, guaranteed by LOTOS Czechowice S.A., for the amount of up to PLN 4,263 thousand, as security for its excise tax liabilities. The promissory note was valid until April 16th 2009.

OTHER MATERIAL CONTINGENT AND OFF-BALANCE-SHEET LIABILITIES SUBSEQUENT TO THE BALANCE-SHEET DATE

- On January 2nd 2009, at the request of Grupa LOTOS S.A., Bank PKO BP S.A. issued a stand-by letter of credit for EUR 3,000 thousand (the equivalent of PLN 12,517 thousand, translated at the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for January 2nd 2008) for the benefit of Umicore Precious Metals Refining, valid through October 15th 2009. The stand-by letter of credit was issued to secure lease payments under platinum lease agreement.
- On February 10th 2009, LOTOS Oil S.A. issued a promissory note for the amount of PLN 5,000 thousand, along with a promissory note declaration, for the benefit of the Customs Office in order to secure an excise tax liability related to the transit of excise goods. The promissory note is valid from March 1st 2009 to February 28th 2011.
- On February 27th 2009, Lotos Jasło S.A. signed an annex to the loan agreement, under which the amount of funds available under an existing credit line was decreased. As a result, the amount of security for the company's current account loan contracted at Bank PKO BP S.A. o/Krosno, made in the form of a blank promissory note, decreased from PLN 18,000 thousand to PLN 10,000. The promissory note is valid through July 29th 2011 (see Note 42).
- On February 26th 2009, at the request of LOTOS Asphalt Sp. z o.o., BRE Bank S.A. issued a documentary letter of credit for EUR 500 thousand (the equivalent of PLN 2,353 thousand, translated using the EUR/PLN mid-exchange rate quoted by the National Bank of Poland for February 26th 2009) for the benefit of NARDINI S.p.A. The validity term of the letter of credit expires on June 30th 2009. The letter of credit was issued to secure the performance of a contract related to the construction of a tarpaper production plant.
- On February 27th 2009, Grupa LOTOS S.A. issued a blank promissory note for the amount of up to PLN 400,000 thousand for the benefit of the Customs Office in Gdańsk to secure the Company's tax liability in connection with the suspended excise tax collection procedure. The blank promissory note is valid through January 13th 2011.

- In order to secure the repayment of a loan, on March 9th 2009 LOTOS Exploration and Production Norge AS issued a blank promissory note with a "protest waived" clause and a promissory note declaration for the benefit of Petrobaltic S.A. The loan of USD 7.5m (the equivalent of PLN 28m, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for March 9th 2009) will be used to finance further implementation of the YME Production Project. The principal amount is to be repayed by January 29th 2010.

- On April 1st 2009, the validity term of the documentary letter of credit for the benefit of CB&L LUMMUS GmbH issued by Bank PKO BP S.A. at the request of Grupa LOTOS S.A. on January 3rd 2007 was extended until May 31st 2009.

- On April 1st 2009, the validity term of the documentary letter of credit for the benefit of CB&L LUMMUS GmbH issued by Bank PKO BP S.A. at the request of Grupa LOTOS S.A. on June 2nd 2008 was extended until May 31st 2009 (Note 42, item 13).

- In order to secure the repayment of a loan, on April 1st 2009 LOTOS Exploration and Production Norge AS issued a blank promissory note with a "protest waived" clause and a promissory note declaration for the benefit of Petrobaltic S.A. The loan of USD 2.5m (the equivalent of PLN 8.8m, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for April 1st 2009) will be used to finance further implementation of the YME Production Project. The principal amount is to be repayed by June 30th 2010.

- In order to secure the payment of excise tax liability, on April 15th 2009 LOTOS Biopaliwa Sp. z o.o. issued (and filed with the Customs Office in Bielsko-Biala) a blank promissory note for up to PLN 18,820 thousand, guaranteed by LOTOS Czechowice S.A., along with a promissory note declaration. The promissory note is valid through June 30th 2010.

11. LOANS ADVANCED DURING THE YEAR, INCLUDING LOANS, SURETIES AND GUARANTEES GRANTED TO RELATED UNDERTAKINGS OF GRUPA LOTOS S.A.

LOANS ADVANCED

- On February 27th 2007, Grupa LOTOS S.A. executed an agreement under which it granted a loan of PLN 1,200 thousand to LOTOS Park Technologiczny Sp. z o.o. Subsequently, the following annexes were executed: annex No. 1 of February 27th 2007, whereby the deadline for creating security for the loan was postponed, and annex No. 2 of January 30th 2008, effective as of December 31st 2007, which extended the loan

repayment date until June 30th 2008. LOTOS Park Technologiczny Sp. z o.o. repaid the loan in full on June 4th 2008.

- On June 26th 2007, Grupa LOTOS S.A. executed an agreement under which it granted a loan of PLN 600 thousand to LOTOS Park Technologiczny Sp. z o.o. Subsequently, the following annexes to the agreement were signed: Annex No. 1, executed on January 30th 2008 and effective as of December 31st 2007, which extended the loan repayment date until June 30th 2008, and Annex No. 2 of July 1st 2008, whereby the final repayment date for the loan postponed to August 31st 2008. LOTOS Park Technologiczny Sp. z o.o. settled its liabilities under the loan on August 20th 2008 (the principal amount) and on August 22nd 2008 (the accrued interest).

- On April 18th 2008, an agreement was executed under which Petrobaltic S.A. advanced a loan of EUR 250 thousand to LOTOS Exploration and Production Norge AS. The loan was a bridge facility to be used for financing of day-to-day operations of LOTOS Exploration and Production Norge AS in connection with postponement of a new issue of shares by the company designed to provide additional equity. LOTOS Exploration and Production Norge AS repaid the liability on May 30th 2008.
As part of the agreement on financing the company's operations, in 2008 Petrobaltic S.A. extended the following loans to finance the YME project. The loans will be repaid in installments, from the commencement of production from the YME field until 2012:
 - loan of USD 50m of August 25th 2008,
 - loan of USD 10m of December 18th 2008.

OTHER CONTINGENT LIABILITIES

- On August 26th 2008, LOTOS Exploration and Production Norge AS created security in the form of a blank promissory note with a "protest waived" clause and a promissory note declaration, for the benefit of Petrobaltic S.A., in order to secure the repayment of a loan and any other liabilities that may arise as a result of the execution and performance of the loan agreement. The loan agreement expires on December 31st 2012. The promissory note was issued to secure the repayment of the USD 50m loan (PLN 113m translated at the rate quoted by the National Bank of Poland for August 26th 2008).

- On December 19th 2008, LOTOS Exploration and Production Norge AS created security in the form of a blank promissory note with a "protest waived" clause and a promissory note declaration, for the benefit of Petrobaltic S.A., in order to secure the repayment of a loan, and any other liabilities that may arise as a result of the execution and performance of the loan agreement. The principal amount of the loan is to be repaid by January 31st

2010. The promissory note was issued to secure the repayment of the USD 10m loan (the equivalent of PLN 29m, translated at the rate quoted by the National Bank of Poland for December 19th 2008).

- In order to secure the repayment of a loan, on January 15th 2009 LOTOS Exploration and Production Norge AS issued a blank promissory note with a "protest waived" clause and a promissory note declaration for the benefit of Petrobaltic S.A. The loan of USD 55m (the equivalent of PLN 177m, translated at the USD/PLN mid-exchange rate quoted by the National Bank of Poland for January 15th 2009) will be used to finance further implementation of the YME Production Project, and in particular the capital expenditure on the project implementation, along with the cost of capital, including interest on the loan. The loan will be paid in three instalments and the date of the last instalment is March 31st 2010.

12. EVENTS AND AGREEMENTS SIGNIFICANT FOR THE OPERATIONS OF GRUPA LOTOS S.A. AND THE LOTOS GROUP, INCLUDING AGREEMENTS BETWEEN THE SHAREHOLDERS, AND INSURANCE, PARTNERSHIP, OR COOPERATION AGREEMENTS.

12.1 SIGNIFICANT AGREEMENTS CONCLUDED BY THE PARENT UNDERTAKING IN 2008 AND AFTER DECEMBER 31ST 2008

Trade Agreements

Agreements between Grupa LOTOS. S.A. and BP Polska Sp. z o.o.

On January 14th 2008, Grupa LOTOS S.A. and BP Polska Sp. z o.o. of Kraków entered into an agreement on sale and purchase of liquid fuels between Grupa LOTOS S.A. and BP Polska Sp. z o.o. The agreement, whose estimated value amounted to PLN 1.300m, remained in force until December 31st 2008. The estimated maximum amount of contractual penalties was PLN 21,000 thousand. The agreement did not contain any provisions permitting either party to seek compensation in excess of the contractual penalties. The other terms and conditions of the agreement did not differ from the terms and conditions commonly applied in agreements of such type.

On December 30th 2008, Grupa LOTOS S.A. and BP Polska Sp. z o.o. of Kraków entered into another agreement on sale of liquid fuels by Grupa LOTOS S.A. to BP Polska S.A.

The agreement was executed for a specified period from January 1st to December 31st 2009, and its estimated value is PLN 1.195bn.

The agreement provides for contractual penalties whose maximum value is estimated at PLN 23.9m. The agreement does not contain any provisions under which either party would be entitled to seek compensation in excess of the contractual penalties.

The other terms and conditions of the agreement do not differ from the terms and conditions commonly applied in agreements of such type.

The agreements were deemed significant as their estimated value exceeded 10% of Grupa LOTOS S.A.'s equity.

Agreement between Grupa LOTOS S.A. and LOTOS Biopaliwa Sp. z o.o.

On April 18th 2008 Grupa LOTOS S.A. and LOTOS Biopaliwa Sp. z o.o. (a wholly-owned subsidiary of LOTOS Czechowice S.A. in which Grupa LOTOS S.A. holds 80.04% of shares) concluded an agreement on supply of methyl esters to Grupa LOTOS S.A.

The agreement, whose five-year value is estimated at PLN 1,700,000 thousand, has been concluded for an indefinite term. The agreement provides for contractual penalties in the event of default. The maximum amount of such penalties is 10% of the VAT-inclusive value of goods. Payment of contractual penalties does not exclude the parties' right to seek compensation in excess of the penalties. The other terms of the agreement do not differ from provisions commonly applied in agreements of such type.

The agreement is deemed significant as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Agreement between Grupa LOTOS S.A. and PKN Orlen S.A.

On June 30th 2008, Grupa LOTOS S.A. and PKN Orlen S.A. concluded an agreement on sale of liquid fuels to PKN Orlen S.A.

Following the execution of the agreement, the aggregate value of agreements concluded between Grupa LOTOS S.A. and PKN Orlen S.A. in the period since October 8th 2007, i.e. the publication date of current report no. 42/2007 on the conclusion of agreements between the two entities, is estimated at PLN 568m. The agreement with the highest value was the one concluded on June 30th 2008, concerning the sale of liquid fuels by Grupa LOTOS S.A. to PKN Orlen S.A. The agreement was concluded for a specified period and remained in force from July 1st to December 31st 2008. Its estimated value was approx. PLN 234.5m. The agreement provided for contractual penalties whose estimated maximum value was approx. PLN 1.1m. The agreement did not contain any provisions under which either party would be entitled to seek compensation in excess of the contractual penalties. The other terms and conditions of the agreement did not differ from the terms and conditions commonly applied in agreements of such type.

The agreements concluded by Grupa LOTOS S.A. and PKN Orlen S.A. were deemed significant as their aggregate value exceeds 10% of the equity of Grupa LOTOS S.A.

Agreement between Grupa LOTOS S.A. and LOTOS Tank Sp. z o.o.

On October 20th 2008 Grupa LOTOS S.A. and LOTOS Tank Sp. z o.o. (a wholly-owned subsidiary of Grupa LOTOS S.A.) entered into an agreement on sale of aviation fuels to LOTOS Tank Sp. z o.o.

The agreement, whose value over a period of five years is estimated at PLN 2,000,000 thousand, was concluded for an unspecified time. It provides for standard contractual penalties whose amount may exceed 10% of the agreement value, depending on the quantity of non-supplied product or uncollected orders.

Pursuant to the provisions of the agreement, the payment of contractual penalties does not deprive the injured party of the right to seek compensation in excess of any such penalties. The other terms and conditions of the agreement do not differ from the terms and conditions commonly used in agreements of such type.

The agreement was deemed significant agreement as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Agreements Concluded between Grupa LOTOS S.A. and StatoilHydro ASA, for an Aggregate Value Corresponding to the Value of a Significant Agreement

On November 3rd 2008, the Management Board of Grupa LOTOS S.A. reported that the total value of the agreements concluded between Grupa LOTOS S.A. and StatoilHydro ASA within the last 12 months stood at USD 276.7m (or PLN 766.5m at the mid exchange rate quoted for USD by the National Bank of Poland as at November 3rd 2008) and thus reached the significant value threshold, i.e. it exceeded 10% of Grupa LOTOS S.A.'s equity.

In value terms, the largest of the agreements concluded within the last 12 months was the agreement of July 16th 2008 governing Grupa LOTOS S.A.'s purchase of crude oil from StatoilHydro ASA. The value of this agreement was USD 79.4m (or PLN 161.2m at the mid exchange rate quoted for USD by the National Bank of Poland as at July 16th 2008). The agreement provided for no conditions or deadlines precedent, nor did it provide for any contractual penalties. The agreement was concluded on the terms and conditions typical for this type of agreements.

Agreement between Grupa LOTOS S.A. and Statoil Poland Sp. z o.o.

On November 20th 2008, Grupa LOTOS S.A. and Statoil Poland Sp. z o.o. of Warsaw entered into an agreement on sale of liquid fuels by Grupa LOTOS S.A. to Statoil Poland Sp. z o.o.

The agreement, whose estimated value amounts to PLN 7bn, was executed for a specified period from January 1st 2009 to December 31st 2011; it may be extended until December 31st 2013.

The maximum value of contractual penalties is estimated at PLN 140m. The agreement does not contain any provisions under which either party would be entitled to seek compensation in excess of the contractual penalties.

The other terms and conditions of the agreement do not differ from the terms and conditions commonly used in agreements of such type.

The agreement was deemed significant as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Concurrently, on the same day an Annex was signed to the agreement between Grupa LOTOS S.A., LOTOS Partner Sp. z o.o. and Statoil Polska Sp. z o.o. of June 30th 2005 (Current Report No. 51/2005 of June 30th 2005), under which the agreement on sale of liquid fuels to Statoil Poland Sp. z o.o. was terminated with effect from December 31st 2008.

Agreement between Grupa LOTOS S.A. and Shell Poland Sp. z o.o.

On December 3rd 2008, Grupa LOTOS S.A. and Shell Poland Sp. z o.o. of Warsaw entered into an agreement on sale of liquid fuels to Shell Poland Sp. z o.o.

The agreement was executed for a specified period from January 1st to December 31st 2009. Its estimated value is PLN 860m

The maximum value of contractual penalties is estimated at PLN 16m. The agreement does not contain any provisions permitting either party to seek additional compensation in excess of the contractual penalties. The other terms and conditions of the agreement do not differ from the terms and conditions commonly used in agreements of such type.

The agreement was deemed significant as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Agreement between Grupa LOTOS S.A. and Lukoil Polska Sp. z o.o.

The Management Board of Grupa LOTOS S.A. reports that on December 22nd 2008, Grupa LOTOS S.A. and Lukoil Polska Sp. z o.o. of Warsaw entered into an agreement on sale of liquid fuels to Lukoil Polska Sp. z o.o.

The agreement was executed for a specified period from January 1st to December 31st 2009. Its estimated value is PLN 675m.

The estimated maximum value of contractual penalties is PLN 13.5m. The agreement does not contain any provisions permitting either party to seek additional compensation in excess of the contractual penalties. The other terms and conditions of the agreement do not differ from the terms and conditions commonly applied in agreements of such type.

The agreement was deemed significant as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Agreement between Grupa LOTOS S.A. and TOTAL DEUTSCHLAND GmbH

On February 13th 2009, the Management Board of Grupa LOTOS S.A. received back the agreement, signed by both parties, between Grupa LOTOS S.A. and TOTAL DEUTSCHLAND GmbH of Berlin.

The agreement of February 1st 2009 concerns purchase of liquid fuels by Grupa LOTOS S.A. from TOTAL DEUTSCHLAND GmbH.

The agreement was executed for a specified period from February 1st to December 31st 2009. Its estimated value is PLN 563m,

The agreement does not contain any provisions on contractual penalties. The parties may seek full compensation for damage suffered before the common court of law in Berlin, in accordance with the German Law which is the governing law for the agreement. The other terms and conditions of the agreement do not differ from the terms and conditions commonly applied in agreements of such type.

The agreement was deemed significant as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Agreement between Grupa LOTOS S.A. and NESTE OIL (SUISSE) SA

On March 13th 2009, the Management Board of Grupa LOTOS S.A. received back the agreement, signed by both parties, concerning purchase of liquid fuels by Grupa LOTOS S.A. from Neste Oil (Suisse). The agreement was signed on December 10th 2008.

The agreement was executed for a specified period from January 1st to December 31st 2009. Its estimated value is PLN 624m.

The agreement does not contain any provisions on contractual penalties. The parties may seek full compensation for damage suffered before the common court of law in London, in accordance with the English Law which is the governing law for the agreement. The other terms and conditions of the agreement do not differ from the terms and conditions commonly applied in agreements of such type.

The agreement was deemed significant as its estimated value exceeds 10% of Grupa LOTOS S.A.'s equity.

Loan Agreement Related to the Implementation of the 10+ Programme

Credit facility agreement of June 27th 2008

On June 27th 2008, Grupa LOTOS S.A. and the following institutions: Banco Bilbao Vizcaya Argentaria, S.A.; Banco Bilbao Vizcaya Argentaria S.A., London Branch; Banco Bilbao Vizcaya Argentaria S.A., Milan Branch; Bank Polska Kasa Opieki S.A.; Bank Zachodni WBK S.A.; Bank of Tokyo-Mitsubishi UFJ (Holland) N.V.; BNP Paribas S.A.; Caja de Ahorros y Monte de Piedad de Madrid; Caja de Ahorros y Monte de Piedad de Madrid, Zweigniederlassung Wien; Calyon; DnB Nor Bank ASA; Fortis Bank S.A./N.V.; Fortis Bank S.A./N.V., - Succursale in Italia; ING Bank N.V. / ING Bank Śląski S.A.; KBC Bank N.V., Dublin Branch / Kredyt Bank S.A; Nordea Bank Finland Plc; Nordea Bank Polska S.A. / Nordea Bank AB (Publ); Powszechna Kasa Oszczędności Bank Polski Spółka Akcyjna; Rabobank Polska S.A. / Bank Gospodarki Żywnościowej S.A.; SACE S.p.A. - Servizi Assicurativi del Commercio Estero; "Societe Generale" S.A. (the Polish branch); Societe Generale S.A.; Sumitomo Mitsui Banking Corporation Europe Limited; The Bank of Tokyo-Mitsubishi UFJ, Ltd. i

The Royal Bank of Scotland Plc executed a credit facility agreement to finance the implementation of the 10+ Programme and the working capital of Grupa LOTOS S.A. Bank Calyon was appointed the Senior Facility Agent, while Société Générale S.A. (the Polish branch) was assigned the role of the Senior Security Agent.

Concurrently, Grupa LOTOS S.A. executed a sub-agreement under the credit facility agreement, concerning a credit facility tranche guaranteed by SACE S.p.A. - Servizi Assicurativi del Commercio Estero, to which the following are parties: BNP Paribas S.A., Fortis Bank S.A./N.V., - Succursale in Italia, Banco Bilbao Vizcaya Argentaria S.A., Milan and SACE S.p.A. - Servizi Assicurativi del Commercio Estero.

Execution of the credit facility agreement is one of the key elements of the strategy of financing Grupa LOTOS S.A.'s operations in the upcoming years. The credit facility agreement is a along with the loan agreement for refinancing and financing of the inventories of Grupa LOTOS S.A. of December 20th 2007 (Current Report No. 55/2007) secure funds sufficient to meet the Company's total requirement for external financing in connection with the implementation of the 10+ Programme.

The agreement concerns a long-term credit facility for the total amount of USD 1,750,000 thousand (PLN 3,739,050 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008), comprising a term loan facility of USD 975,000 thousand (PLN 2,083,185 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008), a redrawable working capital loan facility of USD 200,000 thousand (PLN 427,320 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008), an investment loan of USD 425,000 thousand guaranteed by SACE S.p.A. - Servizi Assicurativi del Commercio Estero (PLN 908,055 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008) and a contingent term loan facility of USD 150,000 thousand (PLN 320,490 thousand translated at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008). The credit facility must be repaid not later than 12.5 years after the first interest payment date. The other terms and conditions of the credit facility agreement, including those pertaining to the security, do not differ from the standard terms and conditions of such agreements.

The credit facility is secured principally with:

- 1.a mortgage with the highest ranking over Grupa LOTOS S.A.'s ownership title or perpetual usufruct right to the real property required for the conduct of operations by the existing and expanded Gdańsk refinery;
- 2.agreement creating a registered pledge over sets of existing and future (acquired over the period of implementation of the 10+ Programme) movables, owned by Grupa LOTOS S.A. and forming a part of or closely related with the Gdańsk refinery or financed under the aforementioned credit facility, used in production, storage and distribution of petroleum products and crude oil, along with the infrastructure and necessary auxiliary equipment, and in particular on the movables comprising the basic production installations, auxiliary production installations, equipment used to blend products, loading facilities, transport pipelines, storage tanks, CHP plants, wastewater

treatment plants, water intakes, and water, electricity, process steam and compressed air systems;

3. agreement creating financial and registered pledges over Grupa LOTOS S.A.'s claims under bank account agreements executed in connection with the financing of the 10+ Programme (the agreement creating the pledges does not cover claims under other bank account agreements concluded by Grupa LOTOS S.A.);
4. agreements for the assignment of the rights and debt claims of Grupa LOTOS S.A. arising under the agreements related to the implementation of the 10+ Programme, the agreements for the management of the 10+ Programme, hedging agreements, licence agreements, insurance documents (related to the Gdańsk refinery and the 10+ Programme) as well as under sales contracts concluded by Grupa LOTOS S.A. with its subsidiaries, if the contracts' annual value exceeds PLN 10,000 thousand. The documents constituting the security for the benefit of Société Générale S.A., the Polish branch (the Senior Security Agent), were executed concurrently with the credit facility agreement.

The agreement is considered significant as its estimated value represents more than 10% of the equity of Grupa LOTOS S.A. There are no links between Grupa LOTOS S.A. or its management staff and the banks for the benefit of which the pledges are to be created or their management staff.

The assets on which the pledges and the mortgage were established are deemed significant as their value exceeds 10% of the equity of Grupa LOTOS S.A. The value of the assets of Grupa LOTOS S.A. which will be encumbered with the pledges and the mortgage specified above will not exceed PLN 2,195,551,210.92, based on the book value as at May 31st 2008 and the maximum amount to be secured with the pledges and the mortgage specified above is USD 2,625,000,000 (PLN 5,608,575 thousand at the mid-exchange rate quoted by the National Bank of Poland for June 27th 2008). Grupa LOTOS S.A. has disclosed the information relating to the security due to the fact that the value of the pledges and the mortgage established on the assets specified above exceeds EUR 1,000,000.

On September 5th 2008, the competent District Court entered into the register of pledges a registered pledge over Grupa LOTOS S.A.'s assets (i.e. over sets of existing and future – acquired over the period of implementation of the 10+ Programme – movables, owned by Grupa LOTOS S.A. and forming a part of or closely related with the Gdańsk refinery or financed under the credit facility agreement providing for the financing of the 10+ Programme, used in production, storage and distribution of petroleum products and crude oil, along with the infrastructure and necessary auxiliary equipment, and in particular on the movables comprising the basic production installations, auxiliary production installations, equipment used to blend products, loading facilities, transport pipelines, storage tanks, CHP plants, wastewater treatment plants, water intakes, and water, electricity, process steam and compressed air systems).

On July 3rd 2008, the Management Board of Grupa LOTOS S.A. received a confirmation that Coöperatieve Centrale Raiffeisen-Boerenleenbank B.A. (operating under the name of Rabobank Nederlands) had acceded to the above agreements.

12.2 SIGNIFICANT AGREEMENTS CONCLUDED BY OTHER MEMBERS OF THE LOTOS GROUP IN 2008 AND AFTER DECEMBER 31ST 2008

In 2008 and after December 31st 2008 no company of the LOTOS Group was party to any significant agreements or any insurance, partnership or cooperation agreements other than those mentioned above.

12.3 EVENTS SIGNIFICANT FOR THE OPERATIONS OF GRUPA LOTOS S.A. AND THE LOTOS GROUP IN THE FINANCIAL YEAR AND AFTER THE END OF THE FINANCIAL YEAR

PETROBALTIC AND THE PRODUCTION SEGMENT

In the E&P segment, in 2008 oil and gas production continued from the B3 and B8 deposits. The crude oil and natural gas outputs were, respectively, 257.7 thousand tonnes, and 29,289 thousand m³. The entire crude oil output was shipped to the Gdańsk refinery, and the natural gas, after being partially used – by the B3 Offshore Oil Rig and the gas flares of the Petrobaltic platform (B8 deposit), was sent via a pipeline to Energobaltic's heat and power plant in Władysławowo. Petrobaltic's crude sales to Grupa LOTOS S.A. amounted to 227.6 thousand tonnes.

In 2008, the key tasks carried out by Petrobaltic included:

- production from the B8 deposit,
- drilling of the B8-Z1 well and the B8-Z1 bis branch from the Petrobaltic platform,
- production from the B8 deposit from the Petrobaltic platform,
- production from the B3 deposit, including water pumping to the deposit of the Offshore Oil Rig located at the Baltic Beta platform,
- maintenance and repair work on PG-1,
- geochemical surveys conducted on the B22, B101 and K1 structures,
- 2D seismic surveys conducted on the B22 and B101 potential deposits,
- 3D seismic surveys conducted on the B28 potential deposit,
- sea bed geotechnical surveys performed to assess the possibility of rig anchoring.

Petrobaltic S.A., the leading company of the LOTOS Group in the field of exploration and production, became a shareholder of LOTOS Exploration and Production Norge AS, whose core business

consists in exploration for and production of crude oil on the Norwegian Continental Shelf. In connection with the planned further expansion of LOTOS E&P Norge's business, the company's share capital was increased to NOK 40m by way of an issue of new shares (i.e. PLN 17,276 thousand translated at the PLN/NOK mid exchange rate quoted by the National Bank of Poland for May 28th 2008). The share capital increase was registered on May 27th 2008.

On June 12th 2008, having acquired all shares in the increased capital and then purchased the remaining shares from Grupa LOTOS S.A., Petrobaltic S.A. became the sole shareholder of LOTOS E&P Norge. The shares, with the total par value of NOK 8,000 thousand (PLN 3,376 thousand translated at the NOK/PLN mid exchange rate quoted by the National Bank of Poland for June 12th 2008), were purchased by Petrobaltic S.A. for a market price equal to their par value. On August 26th 2008, Petrobaltic S.A. acquired 150,000,000 new Lotos E&P Norge shares for a price of NOK 1 per share (same as par value), i.e. for a total price of NOK 150m, and signed a loan agreement under which Petrobaltic advanced a USD 50m loan to Lotos E&P Norge, to be repaid by 2012. Another purchase of an interest in the YME field license was also financed using a loan of USD 55m (i.e. PLN 176.61 translated at the mid-exchange rate quoted by the National Bank of Poland for January 15th 2009) extended by Petrobaltic S.A. and proceeds from the increase of LOTOS E&P Norge's share capital by Petrobaltic S.A. (NOK 240m, i.e. PLN 106.46 translated at the mid-exchange rate quoted by the National Bank of Poland for January 15th 2009).

Production Licenses in the North Sea

In order to expand its activities on the Norwegian Shelf, in 2008 LOTOS E&P Norge obtained from the Norwegian Ministry of Energy and Crude Oil a permit to produce crude oil and took steps designed to acquire assets necessary for launching operations.

- On May 20th 2008, the company signed an agreement with Norwegian company Revus Energy concerning purchase of 10% of interests in production licences which cover the YME field and an additional exploration area. The YME field is located 110 km off the coast, in the southern part of the Norwegian sector of the North Sea.

Upon the fulfilment of all the conditions precedent, including receipt of licences granted by the Norwegian Ministry of Energy and Petroleum for oil and gas exploration and production in the area marked as PL 316, 316B, and 316CS, on August 29th 2008 LOTOS E&P Norge AS assumed all rights and obligations connected with the ownership of the 10% interest in the 316, 316B, 316CS and 316DS production licences located in the North Sea.

The value of the abovementioned agreement is USD 52.5m (or PLN 119.1m, translated at USD/PLN mid-exchange rate quoted by the National Bank of Poland for August 29th 2008). That value will be increased by the amount of investment expenditure made by Revus Energy during the jointly agreed period preceding the assumption of rights and obligations connected with the licences, which will reach approximately USD 12m (or PLN 27.2m, translated at USD/PLN mid-

exchange rate quoted by the National Bank of Poland for August 29th 2008). The investment expenditure which remained to be made after August 29th 2008 (corresponding to the 10% interest in the YME field) before production could be started was estimated at about USD 65m (the equivalent of PLN 147.5m, translated at USD/PLN mid-exchange rate quoted by the National Bank of Poland for August 29th 2008).

The recoverable crude oil reserves of the YME field which correspond to the 10% interest held by LOTOS E&P Norge AS, are estimated by the operator (Talisman) at 6.8 million bbl (about 900 thousand tonnes). Production from the field is expected to start in the second half of 2009.

The transaction was financed from a share capital increase and with a loan granted by Petrobaltic S.A.

In connection with the assumption of rights and obligations associated with the ownership of the 10% interest in the 316, 316B, 316CS and 316DS production licences, Petrobaltic S.A. issued an unconditional and irrevocable guarantee relative to LOTOS Exploration & Production Norge AS' exploration and production activities conducted on the Norwegian Continental Shelf. Issuance of the guarantee by Petrobaltic S.A. was necessary in connection with certain formal and legal requirements imposed by the Norwegian government on investors operating on the Norwegian Shelf.

In the guarantee, Petrobaltic S.A. confirmed that it undertakes to assume full financial liability which may arise in connection with LOTOS E&P Norge AS' activities consisting in exploration for and extraction of the natural resources from the sea bottom, including storage and transport on the Norwegian Shelf using means of transport other than ships.

Petrobaltic S.A. undertook to assume liability for:

- any liabilities assumed by LOTOS E&P Norge AS towards the Norwegian state, any Norwegian commune or any other Norwegian authority,
- any liability for damages, including recourse liability, incurred by LOTOS E&P Norge AS in accordance with the Norwegian law towards the Norwegian state, any Norwegian commune or any other Norwegian authority as well as any natural or legal persons, including companies, associations and other organisations, in connection with any environmental contamination or personal injury.

In connection with the commencement of operations by LOTOS E&P Norge AS in the area of oil exploration and production, the value of the estimated potential claims under the guarantee may exceed 10% of the Issuer's equity.

Following the second purchase of another 10% interest in 2008, LOTOS E&P Norge came to hold a 20% interest in the YME field, which corresponds to 13.6 million barrels (ca. 1,800 thousand tonnes) of recoverable crude oil reserves (figures according to estimates by Talisman, the field operator).

On October 22nd 2008, LOTOS E&P Norge signed an agreement with Norwegian company Det Norske Oljeselskap ASA concerning purchase of a 10% interest in the North Sea production licences No. 316, 316B, 316CS and 316DS. Upon the fulfilment of conditions precedent, on December 30th 2008 LOTOS E&P Norge acquired rights and obligations connected with the ownership of the 10% interest in the licences. The licences cover the development of the Yme field and exploration areas.

In connection with the transaction, on January 20th 2009 LOTOS E&P Norge paid NOK 547,156,703 (PLN 257,929,670 translated at NOK/PLN mid-exchange rate quoted by the National Bank of Poland for January 20th 2009), which comprised the acquisition price, capital expenditure connected with the development of the YME field and costs of exploration work in the licence areas incurred between the economic date of the transaction and the date of its settlement, plus interest accrued for the period.

The transaction was financed with a loan granted by Petrobaltic S.A. and proceeds from an increase of LOTOS E&P Norge's share capital by Petrobaltic S.A.

Exploration Licenses in the North and the Norwegian Sea

- On August 26th 2008, LOTOS Exploration and Production Norge AS signed an agreement with Noreco, a Norwegian exploration and production company, on purchase of a 20% interest in the PL455 exploration licence covering the area of 1,365 square kilometres, located in the southern part of the Norwegian section of the North Sea.

LOTOS Exploration and Production Norge AS will acquire a 20% interest in the said licence in exchange for covering 40% of the estimated expenditure to be incurred by Noreco on performance of seismic surveys under the PL455 licence, i.e. approx. NOK 38m (PLN 15.9m, translated at mid-exchange rate for NOK quoted by the National Bank of Poland for August 26th 2008). Upon the fulfilment of conditions precedent, the transaction was effected on October 31st 2008.

Licence PL455 was granted to Noreco as part of the qualification round APA 2007. Noreco is also the licence operator and – after the transaction with LOTOS Exploration and Production Norge AS – holds a 50% interest in the licence. The seismic survey is scheduled for the years 2008–2009, and in 2010 the licence area will be drilled to confirm its potential. In accordance with the Norwegian tax law, if the exploration proves unsuccessful, 78% of the incurred expenditure may be reimbursed. In exchange, the company agreed to cover in 2009 part of the seismic survey costs incurred by the seller, up to the amount of NOK 37.6m.

On December 18th 2008, in the pre-qualification round APA 2008, LOTOS Exploration and Production Norge AS was granted interests in the following exploration licences in the southern area of the North Sea and in the Norwegian Sea:

1. Exploration licence PL 497: LOTOS E&P Norge – 10% interest (other partners: Det Norske Oljeselskap ASA (acting as the operator) – 35% interest, Bridge Energy AS – 30% interest, Dana Petroleum Norway – 25% interest).
2. Exploration license PL 498: LOTOS E&P Norge (acting as the operator) – 25% interest (other partners: Skagen 44 AS – 25% interest, 4 Sea Energy AS – 25% interest, Edison International Spa Norway branch – 25% interest).
3. Exploration license PL 503: LOTOS E&P Norge (acting as the operator) – 25% interest (other partners: Skagen 44 AS – 25% interest, 4 Sea Energy AS – 25% interest, Edison International Spa Norway branch – 25% interest).
4. Exploration license PL 515: LOTOS E&P Norge – 20% interest (other partners: Rocksource ASA (acting as the operator) – 60% interest, Skagen 44 AS – 20% interest).

10+ PROGRAMME

In 2008, activities related to the implementation of the 10+ Programme, the largest investment project of the LOTOS Group of key importance for the future growth of the Group's value, focused on performing the execution contracts, signing further contracts and arranging financing for the 10+ Programme.

The progress of work under the 10+ Programme as at December 31st 2008 is presented in the chart below.

Source: The Company.

ROSE Unit

In spring, Kellogg Brown & Root made a review of the base design. A series of production-related tests was concluded, which confirmed the feasibility of road bitumen production on the basis of bitumen from the ROSE unit (heavy residue processing unit).

In line with the Early Work Agreement (EWA) concerning the ROSE unit construction signed on June 27th 2008 with Technip Italy SpA, the final terms and conditions of the EP contract for the design services and deliveries had been negotiated. Upon obtaining approval of the financing institutions, the EP contract was signed on September 10th 2008 and work on the technical and outline design of the ROSE unit was commenced in cooperation with the contractors, M.W. Kellogg and KBR.

HDS Unit

As part of the HDS unit project (diesel hydrodesulphurisation), in 2008, foundations were laid for plant and equipment, as well as for steelwork of trestle bridges and racks. The unit power supply network was commissioned, the extension of the contactor and switchgear centres commenced. The construction work on cable conduits and trays was concluded and delivered apparatuses were assembled, including the 713-tonne reactor shipped from Italy.

In addition, work continued on the assembly of apparatuses and pipelines as well as fitting of their thermal insulation. The fire protection system for trestle bridges and apparatuses was completed. Automation and outdoor electrical works continued. The start-up procedures were designed.

CDU/VDU Unit

As part of the CDU/VDU unit project (crude distillation unit), in 2008, contractors were selected and major contracts were signed for the assembly of furnaces, heavy apparatuses and pipelines, as well as for the execution of electric and control and automation work. Prefabrication of pipelines was carried out and deliveries of apparatuses and equipment commenced. Foundation laying was completed. The assembly of steelwork structures was continued and a stack for both furnaces of the CDU/VDU unit was erected. Work on the start-up documentation was commenced and the design work for specific works is currently being finalised.

MHC Unit

As part of the MHC unit project (mild hydrocracking), in 2008, the engineering design work was continued. The majority of apparatuses and equipment was ordered. Commissioning inspections were initiated with respect to the reactors which will be delivered and assembled in H1 2009. Foundation laying and construction of the underground pipeline system continued. Work was underway on the construction of cable conduits, slop channels and the underground system. Electrical works were also carried out.

HGU Unit

As part of the HGU (hydrogen generating unit) project construction works were being finalised. Underground piping works, electrical and automation works continued. All catalyst pipes for the reformer furnace and materials for pipeline prefabrication were delivered to the construction site.

Assembly of the structure of the reformer furnace and assembly of apparatuses and equipment continued. Work on the HGU manual was in progress.

ASR

As part of the ASR project (Amine-Sulphur Recovery), the foundations on the ARU/SWS/SRU/TGTU installations were laid, the assembly of mechanical overground tanks was completed, while the assembly of apparatuses was being finalised. The assembly of steelwork structures and pipelines was continued. The fire protection system for trestle bridges was completed. Automation and outdoor electrical works continued. In November 2008, the start-up team commenced its work.

Utilities and Off-Sites

In 2008, work continued on construction of inter-unit connections and utilities, storage tanks and auxiliary facilities. Materials were ordered for pipeline systems, a contract was signed for assembly of pipelines and pipe bearers, as well as for construction of a new nitrogen unit. The construction work on new power-supply facilities was in progress. In addition, a contract for the construction of a new unit forming part of the process water preparation complex was executed, as was a contract for upgrading the interconnection control systems and water systems.

Steel shells of four VR, VGO storage tanks, two pyrolyse gasoline storage tanks and three diesel storage tanks were assembled. Work on the roofing of the tanks was carried out. Foundation laying for the LPG tank was completed and the tank's assembly commenced. Work continued on the assembly of the pipeline leading to the R7 terminal at the Grupa LOTOS S.A.'s site.

With respect to auxiliary facilities, in 2008, the extension of the wastewater treatment plant was continued as well as concrete and reinforcement works in the complex of cooling water towers (CWT). Final commissioning and pressure testing of underground network systems were completed. Construction work began at the Water Department site, deliveries were launched for the purposes of expanding the CHP building, and preparations for construction of the discharge system commenced.

Main power-supply stations GBDM and GPZ3 were built, the construction of power substations for CDU, MHC and HGU units was advanced, fit-out works on power systems were commenced, main high and medium voltage cable networks were laid.

Financing of the 10+ Programme

In January 2008, Grupa LOTOS S.A., in cooperation with its legal counsel and financial advisor, as well as with the banks' advisors (covering market, technology, insurance and legal issues) answered

the banks' questions concerning the information package of the 10+ Programme, distributed to the banks on December 21st 2007.

Towards the end of January, banks submitted their first firm bids for the financing of the 10+ Programme. Also the Italian export credit agency SACE submitted its preliminary bid.

On February 20th 2008, the Extraordinary General Shareholders Meeting of Grupa LOTOS S.A. resolved to establish security for the credit facilities contracted to finance the 10+ Programme.

The work was also being finalised on the cargo transport insurance policy (known as the CARGO policy) covering deliveries for the 10+ Programme. The policy covers the entire execution period for the 10+ Programme, is consistent with the assumptions of the Grupa LOTOS S.A.'s Insurance Programme for 2008–2010 and was signed in late March 2008.

In March 2008, after the negotiations based on received offers, the final structure of the syndicate of financial institutions which would provide full financing of the project was determined, and the contract terms, both commercial (commissions and margins) and legal were agreed.

In April 2008, Grupa LOTOS S.A. and the syndicate of banks signed a commitment letter which constitutes the banks' binding obligation to advance a credit facility on the agreed commercial terms, together with the term sheet, which sets forth the basic formal and legal terms of the transaction. Subsequently, detailed provisions of the credit facility agreement and the accompanying financial documentation (including security agreements) were negotiated. Finally, on June 27th 2008, Grupa LOTOS S.A. and the bank syndicate executed a credit facility agreement to finance the implementation of the 10+ Programme and the working capital needs of Grupa LOTOS S.A.

CALYON Bank acts as the Senior Facility Agent, while SOCIÉTÉ GÉNÉRALE S.A. performs the role of the Senior Security Agent. Concurrently, under the credit facility agreement, Grupa LOTOS S.A. executed a sub-agreement concerning the credit facility tranche guaranteed by SACE, an Italian export credit agency.

The process of fulfilling conditions precedent to drawdowns under the long-term credit facility to finance the implementation of the 10+ Programme and the working capital needs of Grupa LOTOS S.A. concluded in August 2008.

The first tranche of the working-capital loan was drawn down on August 19th 2008, and the first tranche of the investment loan was drawn down on August 26th 2008.

In September 2008, the Company received the decision issued by the District Court of Gdańsk-Północ on the entry into the Register of Pledges of the pledge established on the assets forming the Gdańsk Refinery (the pledge is one of security instruments established for the benefit of the lenders financing the 10+ Programme).

In November 2008, Grupa LOTOS S.A. received a notification issued by the District Court of Gdańsk and concerning the entry into the Land and Mortgage Register of deposit mortgage on real estate for the benefit of the Senior Security Agent. The mortgage is one of the key instruments securing credit facilities advanced for the financing of the 10+ Programme.

In September 2008, the Company received the final confirmation (issued by the Agent of the credit facility tranche guaranteed by SACE) to the effect that the conditions precedent to the drawdown of

this tranche of the investment credit facility had been fulfilled. The first drawdown under this credit facility tranche was made in October 2008.

Subsequent drawdowns, their dates and amounts, depended on Grupa LOTOS S.A.'s payment ability at a given time and the amount of expenses connected with the implementation of the 10+ Programme. In 2008, drawdowns were made in line with the drawdown notices placed by Grupa LOTOS S.A., based on the information on the then current financial standing of the Company.

As at December 31st 2008, the Company had drawn down approximately 46% of the facilities advanced to finance the implementation of the 10+ Programme.

PROSTA PROGRAMME

In 2008, a subsidiary undertaking, LOTOS Paliwa restructured its service station network and launched several new products, and subsequently focused on further development of the CODO service station network and expansion of the DOFO service station network.

Material Activities Performed in the Implementation of the PROSTA Programme in 2008:

- On February 1st 2008, the NAVIGATOR loyalty programme was implemented at the LOTOS CODO/DOFO network.
- The programme for upgrading the fuel installation to include new Dynamic fuels was continued.
- COCO/CODO service stations were placed in service: at ul. Arkuszowa in Warsaw in June 2008, at ul. Batalionów Chłopskich in Szczecin in August 2008, at ul. Żwirki i Wigury in Bydgoszcz and ul. Kapelanka in Kraków in September 2008, and in Strzeszowice, Radzymin and Zegrze in December 2008. In October 2008, the service station in Lipno (the Province of Bydgoszcz) was excluded from the network and sold.
- 13 new stations (in Kotlin, Trzebiel, Bartoszyce, Dębica, Cieszyn, Włodawa, Zwoleń, Kórnik, Gronów Górny near Elbląg, Lublin, w Ruściec, Żabno and Ostrowiec Świętokrzyski) were included into the LOTOS Family Commercial Partnership Programme; the DOFO service station in Bielsk Podlaski was excluded from the Programme.
- As at December 31st 2008, 54 DOFO service stations offered Premium fuels.

As at December 31st 2008, the LOTOS service station network comprised 355 locations, including 139 CODO stations, 79 DOFO stations and 137 DODO stations. A total of 92 franchise agreements were signed. In line with the assumptions of the Company's Strategy for 2008–2012 regarding transfer of the DODO stations to another operational platform, the total number of COCO/CODO and DOFO service stations is larger than the number of DODO stations since Q1 2007. On December 31st 2008, 46 agreements for DODO service stations expired.

SOUTHERN RAFINERIES

In 2008 and in Q1 2009, LOTOS Czechowice S.A. and LOTOS Jasło S.A. were pursuing the objectives set out in the Grupa LOTOS S.A.'s strategy for the Southern Refineries, designed to achieve their operational integration with the LOTOS Group. Restructuring was conducted in the area of employment, operating activity, organisation and technology, and the use of the Southern Refineries' assets (depots and tanks) in Grupa LOTOS S.A.'s integrated fuel logistics. Storage capacity expansion was continued in line with the plan to focus the operations of both companies on that area.

LOTOS Jasło

LOTOS Jasło S.A. focused on changing its operating profile in connection with the discontinuation of oil processing, scheduled for Q3 2008. As at the end of 2008, the company's core business consisted in provision of services related to trade in (distribution of) oil products, storing of fuels as well as building and maintaining reserves of fuels. The company is developing a number of projects which involve recycling of plastics with the aim to upgrade and expand the used oil recycling process. Having reviewed their respective proposals and technologies, the company began negotiations with prospective investors, aimed at reaching agreements in the form of letters of intent that would define the terms and conditions of proposed cooperation.

LOTOS Park Technologiczny

LOTOS Park Technologiczny Sp. z o.o. continued disposal of its assets to the LOTOS Group companies and third-party investors. The sale of the Terpen Plant at Czechowice-Dziedzice to an external investor was successfully closed.

In line with the timetable, LOTOS Park Technologiczny Sp. z o.o. carried out the allocation of human resources and assets with the aim to discontinue the company's operating activity.

LOTOS Czechowice

In May 2008, LOTOS Czechowice S.A. launched a methyl ester (FAME) production unit. Methyl esters are a component used by Grupa LOTOS S.A. in biodiesel production (project executed by LOTOS Biopaliwa Sp. z o.o. on LOTOS Czechowice's site).

The start-up of the FAME production unit at full capacity (100 thousand tonnes of FAME per year in the continuous production process) took place. Grupa LOTOS S.A. has entered into agreements for the feedstock supplies with Komagra Sp. z o.o., Zakłady Tłuszczowe Kruszwica S.A. and Zakłady Tłuszczowe of Bodaczów. In the near future, methyl esters will be produced from rapeseed oil (about 90% of feedstock) and methanol (about 10% of feedstock).

In accordance with the contract terms, production tests were being carried out and production of the biocomponent was launched at LOTOS Czechowice S.A. The construction work for a tank with the capacity of 32 thousand m³ was continued. Once completed, the tank will increase Grupa LOTOS

S.A.'s available storage capacities in southern Poland. The tank was placed in service on February 6th 2009.

Efforts undertaken by LOTOS Czechowice S.A. led to an agreement for the use of the ABT and furfurool units (which are currently out of operation) as part of a project executed jointly with a foreign investor.

SALT CAVERNS

In 2008, Grupa LOTOS S.A. made preparations for the construction of hydrocarbon underground storage facilities in salt caverns. Under the project, the Company is to build storage caverns with a total capacity of 7 million m³, which later could be expanded to 15 million m³. The project is to be executed in the area between Gdańsk and Tczew, which is optimal both in terms of geology and logistics, especially because of the proximity of the PERN *Drushba* pipeline, the refinery, and the port in Gdańsk, which provides complete loading and unloading infrastructure. As part of the preparatory work, letters of intent were exchanged with the local authorities having jurisdiction over the area of interest for the LOTOS Group. In addition, close cooperation was initiated with the National Institute for Geology so as to determine the optimal location for the storage facilities. Preliminary financial analyses were conducted, which confirmed the viability of the project. Since one of the project's assumptions is that the construction of storage facilities should not require substantial funding from the LOTOS Group, the Group started cooperation with an external entity which will arrange financing. In addition, steps were taken to obtain additional funding from the European Union as part of the "Infrastructure and Environment" Operational Programme.

13. INFORMATION ON THE PURCHASE OR DISPOSAL OF TREASURY SHARES

The Company did not purchase nor dispose of treasury shares in 2008 or in the period from the balance-sheet date until the publication of the Annual Report 2008, i.e. until April 28th 2009.

14. AGGREGATE NUMBER AND PAR VALUE OF ALL SHARES OF GRUPA LOTOS S.A. AND SHARES OF RELATED UNDERTAKINGS OF GRUPA LOTOS S.A. HELD BY MANAGEMENT AND SUPERVISORY STAFF

The management and supervisory staff of Grupa LOTOS S.A. holding shares in Grupa LOTOS S.A. and shares of its related undertakings as at December 31st 2008:

	Number of shares	Par value (PLN)
Management Board, including:	8,636	8,636
Marek Sokolowski	8,636	8,636
Supervisory Board	0	0
Total	8,636	8,636

15. USE OF ISSUE PROCEEDS TO IMPLEMENT THE ISSUE OBJECTIVES

Grupa LOTOS S.A. did not issue any securities in 2008.

16. MATERIAL TRANSACTIONS WITH RELATED UNDERTAKINGS

Transactions worth more than EUR 500 thousand executed by the parent undertaking with related undertakings (PLN '000)

No.	Party to the transaction	Sales for year ended Dec 31 2008	Purchases for year ended Dec 31 2008
1	LOTOS Paliwa Sp. z o.o.	9,924,596	-
2	LOTOS Oil S.A.	273,873	-
3	LOTOS Parafiny Sp. z o.o.	72,808	-
4	LOTOS Kolej Sp. z o.o.	8,126	230,901
5	LOTOS Serwis Sp. z o.o.	4,564	77,843
6	LOTOS GAZ Group	141,685	4,475
7	LOTOS Lab Sp. z o.o.	-	12,795
8	LOTOS Ochrona Sp. z o.o.	-	11,339
9	LOTOS Straż Sp. z o.o.	-	10,273
10	LOTOS Asphalt Sp. z o.o.	878,402	-
11	LOTOS Jaslo Group	103,396	115,450
12	LOTOS Czechowice Group	-	104,437
13	Petrobaltic Group	17,598	374,902

* The equivalent of EUR 500,000 is PLN 1.766 thousand (EUR 1 = PLN 3.5321 – arithmetic mean of the exchange rates quoted by the National Bank of Poland on the last day of each month in the period January 1st–December 31st 2008).

The transactions concluded by the Parent Undertaking or its subsidiary undertakings on terms deviating from the market terms are described in the 2008 Non-Consolidated Financial Statements (Note 43).

17. AGREEMENTS BETWEEN THE ISSUER AND THE MANAGEMENT STAFF

Compensation Agreements

Apart from standard employment contracts concluded by Grupa LOTOS S.A. with the management staff in 2008, no agreements were executed that provide for compensation to the management staff in the event they resign or are dismissed without a good reason or in the event they resign or are dismissed as a result of the Company's takeover by another entity.

18. REMUNERATION, AWARDS OR BENEFITS PAYABLE OR POTENTIALLY PAYABLE TO THE MANAGEMENT AND SUPERVISORY STAFF OF GRUPA LOTOS S.A.

Remuneration paid or due to members of the Management Board of Grupa LOTOS S.A.:

PLN	Year ended December 31st 2008
Paweł Olechnowicz	199,866
Marek Sokołowski	219,520
Mariusz Machajewski	186,256
Total	605,642

Remuneration paid or due to members of the Management Board of Grupa LOTOS S.A. in consideration of their membership in the supervisory boards of subsidiary undertakings:

PLN	Year ended December 31st 2008
Paweł Olechnowicz	228,694
Marek Sokołowski	108,648
Mariusz Machajewski	104,123
Total	441,465

Remuneration paid or due to members of the Supervisory Board of Grupa LOTOS S.A.:

PLN	Year ended December 31st 2008
Henryk Siodmok – Deputy Chairman of the Supervisory Board	22,966
Grzegorz Szczodrowski – Secretary of the Supervisory Board	22,966
Beata Zawadzka – Member of the Supervisory Board	22,966
Marta Busz – Member of the Supervisory Board	22,966
Izabela Emerling – Member of the Supervisory Board	22,966
Jacek Mościcki – Member of the Supervisory Board	22,966
Wiesław Skwarko – Chairman of the Supervisory Board	-
Leszek Starosta – Deputy Chairman of the Supervisory Board	16,559
Mariusz Obszyński – Secretary of the Supervisory Board	16,559
Radosław Barszcz – Member of the Supervisory Board	16,559
Piotr Chajderowski – Member of the Supervisory Board	16,559
Małgorzata Hirszel – Member of the Supervisory Board	16,559
Jan Stefanowicz – Member of the Supervisory Board	40,037
Total	260,628

* The Company received from Mr Wiesław Skwarko a waiver of the remuneration due to him for serving as a member of the Supervisory Board of Grupa LOTOS S.A. The waiver will remain in effect until further notice. Any notice revoking the waiver will not have a retroactive effect on the remuneration so waived.

As at December 31st 2008 the Company did not advance any loans or award any similar benefits to members of the management and supervisory staff.

19. INFORMATION ON AGREEMENTS (INCLUDING AGREEMENTS CONCLUDED AFTER THE BALANCE-SHEET DATE) WHICH MAY GIVE RISE TO FUTURE CHANGES IN THE NUMBER OF SHARES HELD BY THE EXISTING SHAREHOLDERS AND BONDHOLDERS

The Management Board of Grupa LOTOS S.A. has no knowledge of any agreements which may give rise to future changes in the number of shares held by the existing shareholders and bondholders.

20. INFORMATION ON CONTROL SYSTEMS FOR EMPLOYEE STOCK OPTION PLANS

In 2008, no control system for employee stock option plans existed at Grupa LOTOS S.A.

21. DESCRIPTION OF MATERIAL OFF-BALANCE-SHEET ITEMS

Material off-balance-sheet items of the LOTOS Group are described in Section 10 of Directors' Report on the Operations of Grupa LOTOS S.A. in 2008.

22. ENVIRONMENTAL ISSUES

Environmental policy is a key element of the overall corporate responsibility strategy of the LOTOS Group and 2008 was another year of intensive efforts to ensure that the 10+ Programme was implemented in line with the assumptions of sustainable development.

The *Environmental Activities Plan* – a detailed and consequently implemented policy – envisages maximum respect for the environment, not only through compliance with the applicable laws, but also by minimising to the greatest possible extent or altogether eliminating the environmental impact of the Group's operations, also where the applicable laws do not call for such measures to be taken but their implementation is reasonably possible.

To identify and assess all aspects of the environmental impact of the *10+ Programme* (both in the phase of construction and operation of the new units), as described in the *Environmental Activities Plan*, the Group used the *Report on the Assessment of the Plant's Environmental Impact Following the Implementation of the Strategic 10+ Programme* as well as procedures and rules set out in the Environmental Management System (forming a part of the Integrated Management System implemented at the Company).

The group of contractors engaged in the construction phase included Technip ABB Lummus Global Lurgi and Fluor. With a view to minimising the environmental impact, the selection of technology partners was based on their reputation and long-term experience in engineering design and construction of refining and chemical plants across the world.

In the operation phase of the new units built under the 10+ Programme, technologies provided by industry leaders: Shell, Kellogg and Chevron, were selected as the ones ensuring the highest product quality while minimising the environmental impact. The selected production equipment and modules are compliant with the Best Available Technology Reference (BREF) for the refining industry, including the technologies of the future (Best Available Technologies, BAT). They also meet the emissions standards required by law and guarantee that environment quality standards in the vicinity of the refinery will be met. The analysis was performed taking into account the advancement of the technological solutions applied and of the newly installed or upgraded facilities, as well as materials and feedstock management, energy efficiency, and global impact issues (including in particular greenhouse gas emissions) as well as organisational issues.

The implementation of the 10+ Programme will enable the Group to achieve its projected economic objectives with a relatively low increase in pollutant emissions. The quality of the environment in the vicinity of the Company's facilities will not be affected to any significant degree. The unit emissions of air pollutants, wastewater and other waste will decrease relative to the existing levels.

Main Investment Tasks Completed ^(a) or Commenced ^(b) in 2008

Pro-environmental investment projects executed under the 10+ Programme

- HDS unit,
- Extension of the wastewater treatment plant.

Capital expenditure (PLN '000) in:	2008	2007	2006
total Capex	1,910,687	858,482	284,104
pro-environmental investments	224,723	99,880	34,387

The other pro-environmental investment projects

- ^(a) Theft-prevention monitoring system along the product pipelines between the Refinery and the port, which has improved the efficiency of protection of the pipelines against acts of third parties.
- ^(b) Air-tight sealing of the wastewater treatment plant's equipment: the 5100 S-107 A/B separator, the 5100 S-12 flocculator, the 5100 S-3B retention tank and the intermediate pumping station for oiled wastewater, with view to eliminating the emission of disagreeable odours. Prefabrication of the necessary components of the air-tight sealing and degassing product utilisation system commenced. The commissioning is scheduled to take place by the end of Q4 2009.
- ^(a) Computer system for the visualisation and optimisation of energy use, supporting the reduction of emissions.
- ^(a) Use of natural gas in the Refinery's fuel gas system, supporting the reduction of CO₂ emissions.
- ^(b) Xylene separation unit, designed to reduce the share of noxious aromatics in gasolines to the minimum level necessary to meet the other parameters required of this product group.
- ^(b) Replacement of burners in the Lentjes (2700 K-2 and 2700 K-3) boilers with low-emission burners. The project is scheduled to be completed in 2010.
